# RMIT prepares students for life and work

**Ready for a change, but don't want to commit to a full program? Why not join RMIT as a study abroad or exchange student!**

Immerse yourself in a new and exciting culture by studying at RMIT in Melbourne – one of the world's most liveable cities – or Vietnam – RMIT's Asian hub – for a semester or two. Take advantage of the University's strong connections with industry, work-relevant courses and practical learning.

RMIT hosts more than 1,000 study abroad and exchange students from more than 100 countries each year.

## **Acknowledgement of Country**

RMIT University acknowledges the people of the Woivurrung and Boon wurrung language groups of the eastern Kulin Nations on whose unceded lands we conduct the business of the University. RMIT University respectfully acknowledges their Ancestors and Elders, past and present.

# A message from the Vice-Chancellor Professor Alec Cameron

At RMIT we are prepared for today and ready for what comes next, because our University is built on a spirit of resilience and a proven ability to adapt with the times.

Through complex times, we continue to learn and change while remaining united around our purpose of providing life-changing experiences for our students, and shaping the world with research, innovation, teaching and industry engagement.

At major moments in history, universities have a central role to play. Right now, RMIT is focused on helping the economies and social systems where we operate navigate the sustained impact of COVID-19 and the recovery ahead. We are doing this through research, government and industry partnerships, and a determination to ensure our students continue to succeed despite the challenges.

We also remain unwavering in our commitment to diversity and inclusion, because there's never been a time when it's more evident that we are stronger and we are smarter together. The pandemic fast-tracked an education evolution in blended learning for our students and hybrid working for our people and we're excited about the possibilities this brings.

Today, more than ever, we need a global mindset, a vision for new ways of collaborating and learning, and a determination to make education and re-skilling available to all.

Powered by the insight and ingenuity of our people, RMIT will evolve and thrive for the decades to come, generating positive impact across the world.

Because at RMIT, we know that education is life changing.

**Professor Alec Cameron**  
Vice-Chancellor and President

# Testimonials

**Yasemin Ozcelik**

I chose RMIT because of their top-ranked media and communication program. I had heard a lot of positive things about it and wanted to experience it myself. It was the best decision of my life.

My time at RMIT was so different than being at home and studying. Everything was bigger and better.

I especially loved the study space at RMIT, there were so many different places to study, both inside and outside when the weather was nice.

I will never forget my time at RMIT.

**Riccardo Petrachi**

For me RMIT has not been simply my exchange destination, just a university, but it became my second home and big family. RMIT has been the perfect choice. It has given me so much experience and joy in a year of exchange more than I expected. I worked for RMIT, I became a social media ambassador, a trip leader and a mentor. My network has doubled and the fantastic balance between studies and social life on campus made my time here one of the happiest in my life.

What else could have I asked for? I will never regret my choice and will never forget this experience. RMIT now feels home.

**Lena Korostylova**

At my home university in Berlin, I gained important theoretical knowledge in electrical engineering. A semester abroad at the RMIT helped me to expand this knowledge and get a broader, international insight into this field. By choosing interdisciplinary courses I was able to learn important skills which contribute to my studies.
