A warm welcome to New Zealand’s highest ranked university

Whatever your future goals, your time with us will broaden your horizons and help you to become a free thinker.

The University of Auckland offers an extremely wide variety of subjects. We’re also continuing to diversify our array of undergraduate programmes by adding innovative new degrees: the Bachelor of Design, Master of Nursing, Science and Bachelor of Education (TESSOL), new from 2020.

During your time here, you’ll learn from outstanding teachers, many of whom are global leaders in their field. Many of our academics are also energetic entrepreneurs. According to Reuters Top 75, we rank as the most innovative university in New Zealand.** We’ve also been recognised by the MIT Skoltech Initiative as one of the world’s top five emerging leaders in entrepreneurship.

University is about more than just gaining a qualification. Auckland City shines with opportunity. It offers a kaleidoscope of experiences that will help to shape your future. Think about the thrill of living in New Zealand’s biggest and most diverse city, the life-long friends you’ll make, the clubs you’ll join, the life skills you’ll master, and the memories you’ll cherish for years to come. We’re proud of our rich campus and city life, our convenient and secure accommodation options, our extensive scholarships, and our comprehensive support services and pastoral care.

QS World University Rankings also place the University of Auckland at number one in New Zealand for Graduate Employability in 2020.

When you leave the University of Auckland, you’ll be equipped for the next step – what that looks like is up to you. Success with us is just the beginning.

We look forward to welcoming you in 2021.

Dawn Freshwater

Vice- Chancellor

The University of Auckland
THE UNIVERSITY OF AUCKLAND KEY STATISTICS

RANKED #1

The University of Auckland is the highest ranked university in New Zealand in Times Higher Education and QS rankings for 2020.

More than 8,500 international students

Highest ranked New Zealand university for graduate employability

The University of Auckland is ranked 83rd in the world

Most innovative university in New Zealand according to the 2019 Reuters Top 75 Most Innovative Asia Pacific Universities

In addition to over 10 undergraduate programmes to choose from, there are 130 postgraduate programmes on offer across 500 subjects, including PhDs in over 120 different subjects. Options range from strong traditional disciplines to emerging cross-disciplinary subjects.

60 research centres and institutes across the University create knowledge that benefits our social, cultural, economic and environmental future.

128 partner universities in 27 countries give you the opportunity to study in another country through the 280 international exchange programmes.

240 clubs make our University a great place to get connected and meet like-minded New Zealand and international students.

New Zealand is ranked best in Class and #1 globally for the Best Teaching Environment

Quick facts New Zealand/Aotearoa

Population: Approximately 4.8 million
Largest city: Auckland – population 1.5 million
Capital: Wellington
Area: 270,534 square kilometres (104,454 square miles)

Official languages: English, Māori, New Zealand Sign Language
Currency: New Zealand dollar

Exchange rates: US$0.66, £0.51 (Jan 2020 )

Diverse people: Auckland is New Zealand’s most multicultural region: 59.4% European, 23.1% Asian, 14.6% Pacific, 10.7% Māori, 3.1% other significant ethnic groups

Climate: Daytime temperatures in Auckland range from an average of 24°C (75°F) in summer (December to March) to 12°C (54°F) in winter (June to August)

Why study in New Zealand?

New Zealand is a modern, English-speaking country with a rich cultural heritage, known internationally for its stunning and diverse natural landscapes and the culture of its indigenous Māori people. New Zealand has earned a reputation for its politically independent stance, support for environmental causes, sporting achievements, and dynamic political and economic reform. Its citizens have made important contributions in the fields of scientific and technological discovery, medicine, conservation, creative arts, food and wine.

New Zealand is a modern, English-speaking country with a rich cultural heritage, known internationally for its stunning and diverse natural landscapes and the culture of its indigenous Māori people. New Zealand has earned a reputation for its politically independent stance, support for environmental causes, sporting achievements, and dynamic political and economic reform. Its citizens have made important contributions in the fields of scientific and technological discovery, medicine, conservation, creative arts, food and wine.

Situated in the South Pacific Ocean about 2,500km east of Australia, New Zealand has two principal islands - the North Island and the South Island. Comparable in size and shape to the United Kingdom or Japan, New Zealand has a relatively small population of approximately 4.8 million people, making it one of the least crowded countries in the world.

New Zealanders are proud of their diverse heritage, strongly influenced by Māori culture, 19th century British settlement, and by more recent migration, mainly from Pacific Island nations and Asia. New Zealand people are well-travelled and outward looking, with a reputation for being warm, welcoming and friendly to visitors. New Zealand is a desirable country to live in, ranking 14th in the world on the United Nations Human Development Index 2019. It is also ranked 4th out of 163 countries on the Global Peace Index 2019, the world’s leading measure of national peacefulness.

Auckland, a top three city

With a population of approximately 1.5 million, Auckland is New Zealand’s largest city and the country’s economic hub.

A city flanked by two harbours, Auckland’s unique geographic position means you can enjoy the vibrant atmosphere of a large, cosmopolitan city, and still be close to stunning beaches, nature walks and tranquil islands. You can kayak on sparkling harbours in the morning and hike through green subtropical forests in the afternoon. Add to that great cafés, restaurants and bars, excellent theatres, galleries, museums and terrific shopping.

With almost 40 percent of the population born overseas, Auckland is more culturally diverse than Sydney, London or New York,¹ and it is clear why Auckland has been ranked third out of 231 world cities for quality of life.²

¹World Migration report 2015
²Mercer Consulting Quality of Living Rankings 2019

City highlights

Sky Tower – Tallest building in the Southern Hemisphere, with spectacular views of the city
Eden Park – New Zealand’s largest stadium, hosting national and international rugby and cricket matches
Rangitoto Island – A dormant volcano with lava tunnels, fantastic views of the harbour and the world’s largest pohutukawa forest, only a 40-minute ferry ride from downtown Auckland
Piha Beach – The most famous beach in New Zealand, featuring black iron-ore sand, just 40 minutes from central Auckland through the protected forest of the Waitākere Ranges
Waiheke Island – Beautiful, subtropical island famous for its golden sandy beaches, wineries and water sports, just 40 minutes by ferry from downtown Auckland
Mount Eden – Dormant volcanic cone, centrally located with panoramic 360° views over the city, great for a picnic
Newmarket shopping precinct – Excellent shopping, movie theatres, restaurants and cafés, something for everyone
Auckland waterfront – Attractive, urban beaches alongside a walking and cycling promenade, cafés, bars and restaurants as well as sailboard, bicycle, sailboard and catamaran hire
The Domain – A beautiful inner city park close to the University, home to the Auckland Museum, where you can experience cultural performances, see priceless Māori treasures and learn about New Zealand’s natural history
Multicultural and local foods – A fantastic range of multicultural foods from all over the world and unique New Zealand foods

The University of Auckland City Campus

South Auckland Campus
Our new campus in Manukau – Te Papa Ako o Tai Tonga – reinforces our commitment to high-quality, local education and study-support services for students living in South and East Auckland.

Goldie Estate – Wine Science Centre
This 14-hectare vineyard and winery provides a unique venue where Wine Science students live, study and work in a boutique winery in an important winegrowing region of New Zealand.

Tai Tokerau Campus
The Faculty of Education and Social Work offers courses at the Tai Tokerau Campus, located in Whangārei, the capital of the Northland Region of New Zealand.

Leigh Marine Laboratory
The Leigh Marine Laboratory is the “marine campus” of the University, offering opportunities for postgraduate teaching and research at the Goat Island Marine Reserve.

1 City Campus
Located in the heart of Auckland, City Campus provides a full range of amenities, including cafés, health services, libraries, childcare facilities, and a recreation centre.

2 Grafton Campus
Home to the Faculty of Medical and Health Sciences, the Grafton Campus is situated opposite Auckland City Hospital.

3 Newmarket Campus
Covering five hectares, this campus is designed to be a high-quality environment that supports research activities for the faculties of Engineering and Science.

4 Epsom Campus
The Epsom Campus is the main Faculty of Education and Social Work campus, offering programmes in teacher education, sport, health and physical education, and social work.

5 City Campus
Located in the heart of Auckland, City Campus provides a full range of amenities, including cafés, health services, libraries, childcare facilities, and a recreation centre.

6 Grafton Campus
Home to the Faculty of Medical and Health Sciences, the Grafton Campus is situated opposite Auckland City Hospital.

7 Newmarket Campus
Covering five hectares, this campus is designed to be a high-quality environment that supports research activities for the faculties of Engineering and Science.

8 Epsom Campus
The Epsom Campus is the main Faculty of Education and Social Work campus, offering programmes in teacher education, sport, health and physical education, and social work.

9 City Campus
Located in the heart of Auckland, City Campus provides a full range of amenities, including cafés, health services, libraries, childcare facilities, and a recreation centre.

10 Grafton Campus
Home to the Faculty of Medical and Health Sciences, the Grafton Campus is situated opposite Auckland City Hospital.

11 Newmarket Campus
Covering five hectares, this campus is designed to be a high-quality environment that supports research activities for the faculties of Engineering and Science.

12 Epsom Campus
The Epsom Campus is the main Faculty of Education and Social Work campus, offering programmes in teacher education, sport, health and physical education, and social work.

13 City Campus
Located in the heart of Auckland, City Campus provides a full range of amenities, including cafés, health services, libraries, childcare facilities, and a recreation centre.

14 Grafton Campus
Home to the Faculty of Medical and Health Sciences, the Grafton Campus is situated opposite Auckland City Hospital.

15 Newmarket Campus
Covering five hectares, this campus is designed to be a high-quality environment that supports research activities for the faculties of Engineering and Science.

16 Epsom Campus
The Epsom Campus is the main Faculty of Education and Social Work campus, offering programmes in teacher education, sport, health and physical education, and social work.

17 City Campus
Located in the heart of Auckland, City Campus provides a full range of amenities, including cafés, health services, libraries, childcare facilities, and a recreation centre.

18 Grafton Campus
Home to the Faculty of Medical and Health Sciences, the Grafton Campus is situated opposite Auckland City Hospital.

19 Newmarket Campus
Covering five hectares, this campus is designed to be a high-quality environment that supports research activities for the faculties of Engineering and Science.

20 Epsom Campus
The Epsom Campus is the main Faculty of Education and Social Work campus, offering programmes in teacher education, sport, health and physical education, and social work.

21 City Campus
Located in the heart of Auckland, City Campus provides a full range of amenities, including cafés, health services, libraries, childcare facilities, and a recreation centre.

22 Grafton Campus
Home to the Faculty of Medical and Health Sciences, the Grafton Campus is situated opposite Auckland City Hospital.

23 Newmarket Campus
Covering five hectares, this campus is designed to be a high-quality environment that supports research activities for the faculties of Engineering and Science.

24 Epsom Campus
The Epsom Campus is the main Faculty of Education and Social Work campus, offering programmes in teacher education, sport, health and physical education, and social work.

25 City Campus
Located in the heart of Auckland, City Campus provides a full range of amenities, including cafés, health services, libraries, childcare facilities, and a recreation centre.

26 Grafton Campus
Home to the Faculty of Medical and Health Sciences, the Grafton Campus is situated opposite Auckland City Hospital.

27 Newmarket Campus
Covering five hectares, this campus is designed to be a high-quality environment that supports research activities for the faculties of Engineering and Science.

28 Epsom Campus
The Epsom Campus is the main Faculty of Education and Social Work campus, offering programmes in teacher education, sport, health and physical education, and social work.
Research and Innovation

The University of Auckland is a world-class research institution¹ and is recognised as having the greatest depth and breadth of research activity of any tertiary institution in New Zealand.²

World-class research

The University of Auckland is a large, diverse university with strengths in a wide range of disciplines, and a commitment to the research collaboration and impact that this breadth enables. This shapes our sense of place and purpose in the dynamic Asia-Pacific region. It positions us, and indeed obliges us, to address some difficult and important global and local challenges.

We achieve this, and contribute to the societies, environments, cultures, health, technology and economies of New Zealand and the world. We do this through excellence in research, connection with our communities, and commitment to the development of people who will lead positive change. Our research-intensive environment nurtures graduates who are able both to articulate and to challenge established knowledge, and who are equipped with the skills to reshape our world.

Renowned research-led university

We support the work of more than 60 research units, centres and institutes, including two internationally renowned large Scale Research Institutes – the Liggins Institute and the Auckland Bioengineering Institute. In 2020 we are host or co-host to five New Zealand Centres of Research Excellence:

• Ngā Pae o te Maramatanga: New Zealand’s Indigenous Centre of Research Excellence
• Te Pūnaha Matatini: The Centre for Complex Systems and Networks
• Brain Research New Zealand: Rangahau Roro – The Maurice Wilkins Centre for Molecular Intelligence
• Biodiscovery
• Medical Technologies

In 2020 we are host or co-host to five New Zealand Centres of Research Excellence (CoREs), which promote world-class research contributing to New Zealand’s development:

• The Maurice Wilkins Centre for Molecular Intelligence
• Medical Technologies
• Brain Research New Zealand: Rangahau Roro – The Maurice Wilkins Centre for Molecular Intelligence
• Te Pūnaha Matatini: The Centre for Complex Systems and Networks
• Ngā Pae o te Maramatanga: New Zealand’s Indigenous Centre of Research Excellence

New Zealand’s most innovative University

The University of Auckland is New Zealand’s most innovative university³ and is the Asia-Pacific’s Most Innovative University.⁴ It is known for creating inventive and impactful graduates.

The Business School’s Centre for Innovation and Entrepreneurship offers a variety of free support for students and staff at all faculties, enabling participants to unleash their potential. This includes extramural entrepreneurship programmes such as Velocity and facilities such as the University’s state-of-the-art maker space and innovation hub, Unleash Space.

Innovation hub and maker space

All truly entrepreneurial universities have one thing in common, a unique and iconic collaboration and education space. Unleash Space is ours. Through initial fun workshops and equipment training sessions, you will develop hands-on confidence. Our free state-of-the-art create and maker space is equipped with laser and vinyl cutters, 3D printers and scanners, vacuum formers, CNC routers and a sewing station. By pairing practical knowledge with academic understanding, you can transition from playing to experimenting to prototyping inventions.

www.unleashspace.ac.nz

Velocity

Velocity is the University of Auckland’s flagship entrepreneurship programme. Participants have gone on to create world-changing ventures, having benefited from our mentorship, workshops, team culture – and competitions with an annual prize pool of $100,000.

Since 2003, Velocity participants have:
• Created more than 700 jobs
• Generated more than 1,200 ventures
• Attracted over $558 million in investment
• Sold products and services in more than 35 countries

www.velocity.auckland.ac.nz

Dr Hamed Mineaeizaeim

Dr Hamed Mineaeizaeim was studying his PhD in Bioengineering at the Auckland Bioengineering Institute (ABI) when he developed a device to make the chest physiotherapy exercises prescribed for children with lung disorders a fun thing to do.

The device, BreatheHero, was developed in collaboration with a team of researchers at the University, and has won several awards including the UniServices prize in the Velocity $100,000 Challenge. Using sensors and gaming technology, BreatheHero measures how well the children do them, rewards them when they do them well, and also collects data on how often they do them.

Hamed graduated in September 2019. For his PhD he also focused on the lung, using mathematical modelling to develop a framework to use medical imagery to track changes in diseased lungs more precisely than is currently possible. He was supervised by Dr Aly Clark and Professor Merryn Tawhai, both internationally recognised pioneers in lung modelling research.

Hamed began his studies in mechanical engineering at Bu-Ali Sina University in Iran before winning a scholarship to Stellenbosch University in South Africa, where he completed a Masters in Mechatronics Engineering. He worked as a consultant engineer in South Africa, but decided to follow up on his passion for biomedical engineering and moved to Auckland to study at the ABI.

"It is one of the best multidisciplinary bioengineering institutes in the world. It’s a multicultural institute with so many incredibly talented students and researchers who are researching cutting edge technology and science to reshape the future."

Hamed is now employed as a Research Health Intelligence lead at Mahitahi Hauora, a new primary care entity in Northland that is committed to closing the equity gap between Māori and non-Māori in the region. He is leading a data analytic team to better identify where the gaps are in healthcare, why the healthcare systems are disadvantaging Māori and how to address that.
The University is among the top in the world for producing New Zealand-educated international graduates who are highly employable, with the capabilities employers want. Gain the interpersonal skills and networks to prosper in your career, anywhere your ambition takes you. With an employment rate of 96% for our graduates one year after graduation*, you can create your future now with the University of Auckland.

Centre for Innovation and Entrepreneurship
Our Centre of Innovation and Entrepreneurship offers a wide range of innovation, entrepreneurship and commercialisation programmes. We are here to help you build your innovative and entrepreneurial mindset and capability to transform the world. Unleash your potential, wherever you are on your journey. Join a one-day workshop, or enter a part-time programme in the holidays. We have a range of interactive programmes for everyone.

Venturelab is our incubator programme. Summer lab can help you boost your venture, and Velocity is the University of Auckland entrepreneurship development programme.

Career Development and Employability Services (CDES)
CDES assists current University of Auckland students with all aspects of career development. They continue to offer their services for three years following your graduation. CDES can help you find direction and build capabilities that boost your postgraduate employability. This will assist them to become self-managing and able to navigate the world of work, life and learning.

World leading work rights

Study at New Zealand’s highest ranked university and obtain the skills and qualifications in demand with global employers. Grab the opportunity to gain a world-class education, learn new ways of thinking and enhance your future career.

New Zealand’s post-study work rights for international graduates are among the most progressive in the world – most New Zealand-educated international graduates with bachelor’s, masters and PhD qualifications can apply for a visa to work in New Zealand for up to three years after they finish their studies. We also have some of the best work rights for students in the world:

• Most university students can work part-time up to 40 hours a week and full-time during scheduled study breaks.
• PhD and research masters students have no restrictions on the hours they can work while studying.

The services offered allow you to identify opportunities, meet and network with employers and create your future career pathway. CDES provides you with a personalised online career management system. It includes a national international job board, resources, and a portal for booking workshops, events, and appointments with Career Development Consultants.

Understanding the New Zealand job market
CDES Facilitates workshops and employability programmes specifically for international students with a specialised International Career Development Consultant.

University of Auckland Workplace Insights programme
CDES organises a programme where selected international students are paired with alumni, who help them to understand the New Zealand workplace, including employer expectations. This helps the students to make informed decisions and understand the skills they need for employment in New Zealand and can lead to further work experience opportunities.

Our suite of workshops
CDES also offers a suite of workshops that cover:
• Finding work opportunities in New Zealand
• Understanding New Zealand work culture
• Finding your career direction
• Networking: from nervous to natural
• Customising CV, cover letter and job applications
• Answering interview questions: making it easy

The workshops include a LinkedIn tutorial and psychometric testing.

Career and networking events
Over 200 employers connected with students through CDES in 2019. Approximately 30,000 students attended expo and recruitment events. CDES career events include local industry expos, recruitment events and career education events. These allow students to connect with New Zealand and international employers, learn about different organisations, and make important connections.

• 2019 Graduate Destination Survey

With a three-year Post-study work visa you can work for any employer in almost any job in New Zealand. Your partner can apply for a work visa and your children can apply to study as domestic students in New Zealand schools. Kiwi employers recognise the exceptional skills and value New Zealand-educated international graduates bring to Kiwi workplaces.

The Post-study work visa can be a pathway to securing New Zealand residency through the Skilled Migrant Category pathway. If you are less than 55 years old, meet the requirements around health, character and language, and have been working in a job relevant to your degree and above the remuneration threshold, you may be invited to apply for the Skilled Migrant Category pathway to residency. In 2015-2016, 45% of skilled principal migrants who had been international students in New Zealand hung with people who have the skills, experience and qualifications we need to grow our economy.

Ministry of Business, Innovation and Employment 2016

For more information on your right to work during and after study at the University of Auckland, visit www.immigration.govt.nz or www.naumainz.studyinnewzealand.govt.nz

Build a global career

Gunt Kittiwat
Gunt, from Thailand, completed a Bachelor of Commerce in Operations and Supply Chain Management at the University of Auckland, and now works as a Business Analyst at United Steel.

It was the University of Auckland’s ranking that drew me in, but stayed for the quality of lectures, the teaching materials, the support we received, and the lecturers who genuinely cared for their students.

One thing I really liked was the flexibility of the degree. You can create your own subject matters from different areas of expertise, which helps you explore yourself and solidify your career plan for the future. You also get to meet new people from different majors and backgrounds, which is always a fun thing to do.

I am putting my learning to good use in my current job, learning people work smarter, not harder. It also allowed me to remain my best interest at work. I got my job mainly through the INFOSYS 3+5 Business Project course, which is similar to an internship. We formed a team in class and worked together throughout the year to help identify and solve business problems in the real world. Our team came first in the course, and as a result I was approached by United Steel.

Sylvania Marchellina Suhartono
Sylvania came to the University of Auckland from Indonesia to pursue her Master of Energy degree and further her career in the field of renewable energy.

I used to work as a Field Engineer for Schlumberger, a Commissioning Technical Engineer for Total E&P Chevron Pacific Indonesia and Pertamina. I was working in the field on and off-shore 24/7, managing clients and supervising people. Being the only woman on the rig was not a big deal for me.

“One of the biggest decisions in my life was deciding whether I should pursue a higher degree or stay in my comfort zone. Continuing on to a masters degree was the right option in spite of the challenge. I believe that I still have contributions to make to my field. “

“Fossil energies are going to run out soon, followed by the decrease of oil stock worldwide. Studies in renewable energy are amongst the most necessary topics in the world. I’m being taught by expert lecturers and recognised renewable energy practitioners, and my knowledge will benefit my country, especially since there is currently a lack of experts in geothermal energy technology there.”

Sylvania Marchellina Suhartono
Sylvania came to the University of Auckland from Indonesia to pursue her Master of Energy degree and further her career in the field of renewable energy.
Our commitment to sustainability

The 17 United Nations Sustainable Development Goals (SDGs) were established in 2015. They set a 15-year agenda and call to action for all countries to end poverty, fight inequalities and build peaceful, just and sustainable societies by 2030.

The University of Auckland ranked No. 1 globally in the University Impact Rankings by Times Higher Education (THE) in 2020 for the second year in a row. The rankings measure how universities worldwide are performing against the SDGs.

The Bachelor of Global Studies is a cross-faculty degree that draws on the combined expertise of the faculties of Arts, Business, Creative Arts and Industries, Engineering, Law and Science.

This interdisciplinary programme will expand your mind as you are exposed to new ways of thinking about the world. As you gain competency in another language you’ll deepen your understanding of other cultures and perspectives.

The Bachelor of Global Studies will shape you as an informed citizen who can make a difference in our increasingly globalised world.

You will develop skills for employment, such as leadership, teamwork, public speaking, critical thinking, research and intercultural communication.

www.auckland.ac.nz/global-studies

Sustainable Development Goal | Our ranking
--- | ---
Overall ranking for impact | 1st
SDG 14: Life below water | 2nd

www.auckland.ac.nz/sustainability

Based on the principle of ‘leaving no one behind’, the Agenda for Sustainable Development includes 17 goals, which together seek to transform the world by meeting the challenges of ending poverty and enhancing social inclusion, while promoting environmental sustainability, peace, good governance and economic prosperity for all countries and their people.

Dr Hilary Chung, Founding Director of the Global Studies Programme

Global Studies

The Bachelor of Global Studies is a cross-faculty degree that draws on the combined expertise of the faculties of Arts, Business, Creative Arts and Industries, Engineering, Law and Science.

This interdisciplinary programme will expand your mind as you are exposed to new ways of thinking about the world. As you gain competency in another language you’ll deepen your understanding of other cultures and perspectives.

The Bachelor of Global Studies will shape you as an informed citizen who can make a difference in our increasingly globalised world.

You will develop skills for employment, such as leadership, teamwork, public speaking, critical thinking, research and intercultural communication.

Majors include:
- Global Environment and Sustainable Development
- Global Politics and Human Rights
- International Relations and Business
- Transnational Cultures and Creative Practice

www.auckland.ac.nz/global-studies
Tarini Wijesekera

Tarini, from Sri Lanka, is studying towards a Master of Public Policy and was awarded the International Student Excellence Scholarship.

"After completing my undergraduate degree in sociology, I wasn’t sure about what to study for my masters. I decided to work for a year which led me to realise I was interested in how social problems can be solved practically. Public Policy is ideal for this as it teaches you the basics of defining, analysing and solving problems. Moreover, Public Policy is a versatile area of study because it hones your skills in research, writing and communication, which are crucial for jobs in a range of industries.

"Coming from a background where my family is supporting my education, it was a relief to receive the International Student Excellence Scholarship. It has definitely eased the financial burden on my parents and my own anxiety, knowing that my tuition fees are partially covered.

"Studying for the Master of Public Policy at the University of Auckland has given me a versatile and transferable skill set, which will equip me well for work in different organisations and industries.

"I was motivated by the flexibility of the programme, as I could tailor my degree to suit my academic and research interests. The level of support provided to students by the University, both academically and emotionally, was another factor that was important to me.

"I’m currently working on an interesting project as part of my internship at the Ministry of Business, Innovation and Entrepreneurship. I’m doing a literature review of megatrends expected to impact New Zealand’s economy in the next ten years. The internship is a component of the degree, and it has been a great opportunity to make connections in the policy arena and to get a taste of what working in policy in the public sector is like."
Lin Pham

Linh wants to use her Master of Marketing to elevate rural tourism in her home country, Vietnam.

"It is a real honour to be a New Zealand Scholarship recipient. Being a New Zealand Scholar pushed me towards creating realistic, measurable goals on the way to becoming a marketing practitioner. I have already achieved my first goals – publishing my official marketing blog page and having my first academic publication.

*I aspire to become a marketing practitioner in the tourism industry, because I know that with proper marketing skills and knowledge I can help small tourism firms in poor rural areas in Vietnam, my home country. I have travelled to many different regions in Vietnam where I saw poor households that previously survived on agriculture now moving to tourism with the hope of earning a better living. Many struggle as they don’t have access to affordable, practice-based business and marketing knowledge. That’s why I’m passionate about providing accessible marketing services to elevate rural tourism businesses in Vietnam.

"Staff at the University, especially the professors, are very welcoming and supportive. They have given me insightful and valuable advice on not only course-related matters, but also career prospects and future development. I’ve also had great support from the International Student Advisors at the University and New Zealand Scholarship alumni. The in-time, accessible support was a big factor that eased my worries during the application process.

"I aim to become a marketing consultant for small and medium tourism firms (SMEs) in Vietnam within the next five years. The Master of Marketing is a great starting point, as I have the chance to gain knowledge as well as the professional conduct of an industry consultant. Outside of lectures we practice consultancy projects with real clients – companies from various industries. The programme will help me start my career in multiple ways, from the application of knowledge in real work to polishing my CV and building my reputation as a consultant.”
Izzat Ramli

Izzat came from Malaysia to study for a Bachelor of Architectural Studies. He is now working towards completing a Master of Architecture (Professional) degree.

"Architecture is a very demanding programme. It demands your time, skills, energy, and requires creative thinking with technicality. I’m grateful to be surrounded by good studio mates who are always supportive, and by tutors, many of whom are professional practicing architects, who give me guidance and advice. The quality of students’ work is significantly influenced by the large working space provided by the School of Architecture and Planning, complete with high-end computers and other technologies. In 2018 I received a Summer Research Scholarship from the University to develop my research on the connection between indigenous architecture of the Pacific and South East Asia, supervised by Professor Deidre Brown. The scholarship enabled me to conduct research in Malaysia, Borneo, and Indonesia. I am also a recipient of the Public Service Scholarship from the Department of Malaysia Academic Scholarship. The scholarship enabled me to conduct research in Malaysia, Borneo, and Indonesia.

"In 2018 I received a Summer Research Scholarship from the University to develop my research on the connection between indigenous architecture of the Pacific and South East Asia, supervised by Professor Deidre Brown. The scholarship enabled me to conduct research in Malaysia, Borneo, and Indonesia. I am also a recipient of the Public Service Scholarship from the Department of Malaysia Academic Scholarship. The scholarship enabled me to conduct research in Malaysia, Borneo, and Indonesia."

"Architecture is a very demanding programme. It demands your time, skills, energy, and requires creative thinking with technicality. I’m grateful to be surrounded by good studio mates who are always supportive, and by tutors, many of whom are professional practicing architects, who give me guidance and advice. The quality of students’ work is significantly influenced by the large working space provided by the School of Architecture and Planning, complete with high-end computers and other technologies. In 2018 I received a Summer Research Scholarship from the University to develop my research on the connection between indigenous architecture of the Pacific and South East Asia, supervised by Professor Deidre Brown. The scholarship enabled me to conduct research in Malaysia, Borneo, and Indonesia. I am also a recipient of the Public Service Scholarship from the Department of Malaysia Academic Scholarship. The scholarship enabled me to conduct research in Malaysia, Borneo, and Indonesia."

The Faculty of Creative Arts and Industries is a centre of creative excellence, bringing together teaching and research in Architecture, Dance, Design, Fine Arts, Heritage Conservation, Music, Urban Planning and Urban Design. Architecture and planning (architecture/built environment) is ranked within the top 100 schools in the world.1 We provide a lively studio teaching environment filled with fellow creatives and internationally recognised artists, practitioners, teachers and researchers. Our strong links with national and international creative communities enable you to connect and foster relationships with relevant professional and business organisations as part of your study.

The PhD and named doctorates are available for advanced research across all our disciplines. We also offer a PhD with a creative practice component. Students have the option to link theory and creative work into new innovative outcomes by incorporating elements such as contemporary art, design, performance or film into their research and final submission. Studying at Creative Arts and Industries cultivates imaginative thinking, fresh ideas and innovation. The educational experience within the faculty and at the University of Auckland will help set you up for a life of research, discovery and practice that contributes to the future development of society and the creative arts and industries sector.

"I always aspire to be creative and want to use my skills to help the community. My four years of study at the University of Auckland have helped shape my architectural thinking. I have learned from different kinds of projects throughout my studies, from high rise buildings to social housing for slum dwellers. I hope to use those ideas in my future career. Every international student is like an ambassador for their own country. Don’t be scared of trying and learning new things. Be confident in expressing your ideas and opinions because other students from different countries can learn a lot from us, too, with our own unique culture and identity."
Lexie Qiao
Lexie, from China, is studying towards a Bachelor of Education (Teaching), specialising in Early Childhood Education. In 2019 she won a Blues Award for excellence in leadership.

“Education has always been my passion, and I’m interested in the ways people think and learn. I often reflect on my own experience of growing up in both Kiwi and Chinese education systems. I am interested in exploring the definitions of quality education for Kiwi children, and combining the essence of multiple cultures to achieve more equitable learning outcomes for all students.

“I value my network, and believe the people who surround you are significant for your future development. Choosing the University of Auckland means stepping onto a platform where you can mingle with the best in their fields and truly unleash your potential.

“In 2019, I received a Blues Award in Leadership and Services from the University – a high accolade at tertiary level for excellence in leadership. The award recognised my contribution for leading a student programme called Lucky Student Help, to support international students with mental health and personal development over the past two years. The acknowledgement has encouraged me to pursue my passion and showed me there are so many possibilities at University.

“My future career goal is to create high-quality education opportunities for students and support them to become global citizens by running businesses and not-for-profit organisations. In the 21st century, soft skills bring the most competitive advantages for the job market. The best thing about a Bachelor of Education is that it’s equipping me with professional communication skills in the workplace and offering rich experiences in the real world; my career ambition is to work in the field of education and become a future global citizen.”

Education Research

Dr John O’Hare is an award-winning lecturer and researcher in counselling, human services and social work.

With extensive experience utilising social innovation technologies to create positive change for young people, John’s research lies primarily in youth wellbeing and how it is impacted by victimisation, harassment and gender and sexuality norms in education settings. His research around how young people manage online challenges effectively contributed to significant policy and practice developments in New Zealand, particularly around cyberbullying.

John is the academic and co-director of Resilience Out – Via Ali Beling, a learning resource to help increase understanding and support of sex, gender and sexuality diversity. The resource won the prestigious NZ Design Institute Award for Social Good in Design in 2018 and an international hundrED Award for the top inspiring innovation in K-12 education in 2018.

Daniel Campbell

Daniel is a New Zealand Scholarship recipient from the Caribbean state Saint Vincent and the Grenadines, who graduated in 2019 from the Master of Engineering programme.

"I feel extremely grateful to the government of New Zealand for giving me a New Zealand Scholarship. This opportunity provided me with the means to pursue postgraduate research at the prestigious University of Auckland.

"My specialisation is in Civil Engineering, focused on improving residential construction, project resilience and productivity. This study area is mutually important to New Zealand and Saint Vincent and the Grenadines (SVG) – the results may eventually contribute to the economic and social development of both multi-island states.

"SVG is classified as one of the top five most vulnerable countries in the world to natural disasters such as earthquakes, hurricanes, landslides, rains and drought. New Zealand has been able to continuously build its resilience to similar natural hazards, but also faces challenges with improving resilience and productivity.

"The academic and teaching staff at the University are great. The Engineering faculty has supervisors with extensive experience in both industry and academia. My supervisor Dr Garry Miller gave excellent guidance and support throughout the research process. He shared valuable lessons learned from his own research experience and always made time for face-to-face meetings to give high quality feedback. The International Student Advisers were also exceptional pillars of support."

Lynn Buckley

Lynn, originally from Ireland, is completing a PhD specialising in Company Law. She is a recipient of the University of Auckland Doctoral Scholarship.

“I graduated from the University of Limerick with a Masters of International Commercial Law. I decided to pursue a PhD because I am passionate about my research topic. My research focuses on company law, corporate governance, and environmental sustainability. One of the things I enjoy most is the interdisciplinary nature of this growing area of research, as each discipline has the potential to offer its own unique ideas and insights.

“I chose to study at Auckland Law School because it is renowned for its subject matter expertise in environmental, corporate, and commercial law. Its focus on these areas afforded me the opportunity to research under the supervision of leaders in their academic fields.

“I like the flexibility the PhD programme provides to travel and connect with researchers from all over the world. A highlight of the programme has been the opportunity to travel to the University of Oslo where I was fortunate to present my research at the PhD Seminar on Companies and Markets.

“I am very fortunate to be in receipt of the University of Auckland Doctoral Scholarship. Without the scholarship I would not be in a financial position to undertake full-time doctoral study, so I’m very grateful to have the chance to fulfil my research ambitions.

“My studies are providing me with a range of invaluable benefits, from increased subject knowledge and enhanced transferrable skills to intellectual fulfilment and a sense of community with my peers. I’d love to work in academia one day and I believe that pursuing a PhD will help me along this career path. PhD students at the University of Auckland are afforded the opportunity to gain relevant experience through programmes such as the Doctoral Academic Leadership Initiative.”

Law

Auckland Law School has a proud history and produces many outstanding graduates. In 2020, we were ranked among the top 50 law schools in the world in the prestigious QS World University Rankings by Subject.

Our undergraduate and postgraduate programmes offer the largest range of courses of any Law faculty in New Zealand. The Law School has high entry standards for its Bachelor of Laws (LLB) and Bachelor of Laws (Honours) (LLBHons) degrees, and has New Zealand’s largest postgraduate programme in law.

Leading scholars from top overseas universities regularly visit the Law School and teach courses for the Master of Laws (LLM) programme.

Situated in the heart of the legal precinct, the Auckland Law School has strong links to the legal profession and judiciary. It is supported by the staff and resources of the Davis Law Library, New Zealand’s leading legal research library. The school provides a complete legal education, preparing students for legal practice as well as many other careers in an internationalised world. Law at the University of Auckland is challenging, exciting and taught by some of the best legal scholars from New Zealand and around the world.

Law research

Associate Professor Timothy Kuhner is known for his uncompromising approach to the law of democracy. He recently co-edited a book on campaign finance reform in the United States, entitled Democracy by the People. Published in 2018 by Cambridge University Press, Kuhner and eighteen other experts weigh in on the corruption of the American political system and the options for changing course.

Kuhner also recently co-wrote a short film called The Struggle Against Corruption with staff at the United Nations Office on Drugs and Crime. In the film, he warns of democracy’s vulnerabilities to greed and authoritarianism.

Barbara Angoro

Barbara, from Papua New Guinea, is a doctoral candidate in the School of Pharmacy at the Faculty of Medical and Health Sciences. She received a New Zealand Scholarship to fund her studies.

“I am blessed to have received a full scholarship for the duration of my PhD studies, funded through the New Zealand Aid Programme and administered by the Ministry of Foreign Affairs and Trade. It has helped tremendously in terms of living expenses and tuition fees, allowing me to focus on studies without added stress. “

“...and Learning Services workshops, to the Doctoral Induction day, to Libraries and...”

A career in medical and health sciences is a career for life. You can make a powerful difference in the lives of individuals and influential society for the better.

Studying with us means that you learn from skilled, internationally recognised academics in programmes designed to improve the health of real people. We also offer a modern, exciting and stimulating environment with outstanding facilities. The faculty is located at the Grafton Campus, opposite Auckland City Hospital, New Zealand’s largest public hospital and clinical research facility.

Our programmes span Medicine, Nursing, Medical Sciences, Pharmacy, Optometry, Population Health and a variety of Science disciplines. We offer a range of postgraduate study options, including workplace experiences.

Major research strengths include bone disease, cancer, perinatology, epidemiology, clinical trials and neuroscience. Researchers and research groups in these and other key areas provide nurturing and supportive postgraduate training in a flexible and innovative learning environment.

Medical and Health Sciences research

Professor Julian Paton is a world leader in understanding how the peripheral and central nervous systems regulate the cardiovascular and respiratory systems. His work in understanding the central body, its function and interaction, has provided insight into novel targets for therapeutic treatment and management of hypertension – a leading cause of premature death worldwide – and sleep apnoea.

Professor Paton leads the translational Cardio-Respiratory Research Laboratory as part of the Cardiovascular Autonomic Research Cluster.

Working with Dr Carolyn Barnatt, Dr James Fisher, Dr Sarah Jane Guld, Prof Simon Malpas, Dr Fiona McBryde, and Dr Rohit Ramchandra, he studies the autonomic control of the cardiovascular system, specifically in hypertension, heart failure and stroke to generate novel mechanisms that are being translated to improve cardiovascular health and well-being.

www.fmhs.auckland.ac.nz
Nishita Balamuralikrishna

Nishita’s Master of Professional Studies in Data Science taught her how to deal with big data and develop meaningful insights.

“I was looking to change my field in my final year of undergraduate study. I enjoyed programming, databases and statistics and wanted a field that would combine all three, so Data Science was a natural choice. During my search for data science programmes, I discovered that the University of Auckland is one of the best in the world for statistics, so that also helped make my decision.

“Taking courses without final exams and dependent on assignments for credits was different from my experience as a student in India, but the professors were very helpful. They answered the numerous questions I had which took away a lot of stress.

“Since graduation I have been working at EROAD as a Data Analyst/Business Intelligence Developer. One of my favourite parts of the job is dealing with massive amounts of data every day. The MProfStuds in Data Science taught me how to deal with big data and develop meaningful insights. Being able to put what I have learned to use in everyday work has been great.

“I didn’t have a lot of experience attending job interviews, so the events run by Career Development and Employability Services on resume writing and interviews were very helpful.

“I can see myself moving from a data analyst/business intelligence developer into a data scientist role in the future. In the long term I want to get a PhD specialising in machine learning and database systems.

“I’m driven by a love for data, programming and solving problems. I hope to help people with the insights and analysis I create. Working for a company like EROAD – who are heavily invested in driver and road safety – means my insights could help save someone’s life one day.”

Science

The Faculty of Science is New Zealand’s leading science faculty,” and is held in high regard for outstanding quality teaching and diverse research opportunities.

With 11 of the University’s science subjects ranked top in New Zealand, the faculty boasts eight subjects ranked in the top 100 worldwide. Our strengths include Computer Science, Environmental Science, Geography, Mathematics, Statistics and Psychology.

The Faculty of Science is also the largest science faculty in New Zealand® with over 8,200 students (3.9% international) and a large variety of subjects available at both undergraduate and postgraduate level.

New Zealand’s unique geological history, its biota, climate and location in the South West Pacific provide opportunities for the application of science to many environmental and global problems.

- One year coursework plus one year research (two years in total)
- One year coursework plus one year research (two years in total)
- One year coursework plus one year research (two years in total)
Pathways to undergraduate study

New Zealand secondary school
New Zealand schools have an excellent reputation for their teaching quality and academic facilities. Pastoral care for international students often includes home-stay accommodation with a family. Most schools offer the National Certificate of Educational Achievement (NCEA), and some offer the internationally recognised University of Cambridge International Examinations (Cambridge International) or International Baccalaureate (IB). The University of Auckland recognises all of these qualifications.

Our entry requirements for students who have completed NCEA, Cambridge International (taken in New Zealand) or IB qualifications are the same for both New Zealand domestic students and international students.

Foundation programmes
If your secondary school qualifications do not meet our entry requirements, a Foundation programme can be an alternative entry pathway into a bachelor’s degree.

Foundation programmes are suitable for both native English speakers and speakers of English as a second language. They will prepare you for university education with skills in:
- Critical and independent thinking
- Computer use and research
- Essential subject knowledge, such as accounting, art, biology, calculus, chemistry, classical studies, computer science, design, economics, English, geography, physics and statistics
- Critical and independent thinking
- Evidence of past academic achievement

Two foundation programmes are taught on behalf of the University:
1. Foundation Studies Certificate, taught by Taylors College, Auckland
2. The University of Auckland Certificate in Foundation Studies, taught by UP International College New Zealand

You must also meet any additional entry requirements for your programme(s) of study, such as an interview, audition or portfolio.

Taylors College
The Foundation Studies Certificate programme, owned by the University of Auckland and delivered by Taylors College in Auckland, is a comprehensive university preparation programme tailored to international students. Once enrolled in the Foundation Studies Certificate programme, you will officially become a student of the University of Auckland and enjoy full access to all University facilities and services, as well as student clubs and societies.

Taylors College
75 Karangahape Road, Auckland City
Email: fsc-questions@auckland.ac.nz
Phone: +64 9 307 5399
www.taylorsauckland.ac.nz

UP International College
The University of Auckland Certificate in Foundation Studies is owned by the University and delivered by UP International College, which has had a proven partnership with the University for over 50 years, offering a guaranteed progression for students into their chosen degree. The programme provides academic qualifications and study skills and enables students to transition successfully to the Kiwi way of life. Located nearby, you will be welcomed to the University with campus visits, support from alumni and teachers, social activities and access to resources.

UP International College
345 Queen Street, Auckland City
Email: admissions@up.education
Phone: +64 9 307 5199
www.up.education

Prior tertiary study
If you have started or completed tertiary study outside New Zealand, and want to study for a bachelor’s degree, you can transfer from a New Zealand or overseas tertiary institution to the University of Auckland. Your overseas qualifications(s) must be approved for university admission, and you must also meet the entry requirements and undergraduate English language requirements for your programme. In your Application for Admission, you can apply for transfer of credit for tertiary courses completed elsewhere.

Tara Tan, Managing Director of UP International College, Auckland
"My time at Taylors College was a really good transition for me between high school and university. I had a great experience while preparing for university and made lots of friends. I highly recommend it. The reason I choose the University of Auckland is because it is the top university in the country. We have modern laboratories, well-equipped lecture rooms and friendly staff. We have everything you can expect."

Kyle, from China, studied at Taylors College and is now studying towards a Master of Engineering Studies (Honours) at the University of Auckland
"My time at Taylors College was a really good transition for me between high school and university. I had a great experience while preparing for university and made lots of friends. I highly recommend it. The reason I choose the University of Auckland is because it is the top university in the country. We have modern laboratories, well-equipped lecture rooms and friendly staff. We have everything you can expect."

Key
A These subjects are available as areas of PhD study within other subjects in the Faculty of Science or within other faculties at the University. (Please consult a postgraduate adviser about availability.)
B Offered by the Faculty of Medical and Health Sciences
C Must be registered NZ optometrists

Pursue your PhD at the University of Auckland and pay the same tuition fees as New Zealand doctoral candidates—just NZ$7,250.40 in 2020.1 Join a research-led university with a reputation for academic excellence. You will have the opportunity to collaborate with world-class researchers, publish in leading academic journals and build the skills you need for a successful future in academia, industry and beyond.

Why choose us for your PhD?

World-class reputation
Our university is an institution of global standing, ranked among the top 200 in the world by QS World University Rankings, and in the top 2% globally by Times Higher Education. The QS Stars audit recognises our world-leading status, designating us as a Five Star Plus university for excellence overall, as well as excellence in the following categories: Research, Innovation, Employability, Internationalisation, Inclusiveness, Teaching and Facilities. We are the highest ranked university in New Zealand by both QS World University Rankings and Times Higher Education.

Leading research
We are New Zealand’s largest research organisation and have more comprehensive research offerings than any other university in the country. Our work is supported by the highest level of research income of any New Zealand university, having won 30% of the nation’s research fund. Our institution supports over 60 research units, centres and institutes, and hosts or co-hosts five Centres of Research Excellence (CoREs). This gives you the opportunity to contribute to a wealth of research activities that lead the way in your field.

Dynamic academic community
We have a higher concentration of top-ranked researchers than any other university in New Zealand2 and we support more annual graduate student completions than any other university in the country. Our thriving doctoral community is impactful and truly international: on average, our doctoral candidates attend three international conferences and publish three papers during their PhD, and around half of all our doctoral candidates join us from overseas.

Comprehensive support
We support your PhD journey through our outstanding financial, academic, employability and research-focused services and opportunities. These include:
- Postgraduate Research Student Support (PhDSS), an individual fund granted to every doctoral candidate for research-related expenses.
- Access to scholarship opportunities that support the studies of exceptional candidates.
- Use of the largest university library in New Zealand, staffed by research services advisers who offer personalised research assistance.
- A comprehensive toolkit of workshops, programmes, unique development opportunities and online resources to enhance your research skills, academic skills and employability. (These include academic leadership and English Language Enrichment.)
- Support from a range of services, including the School of Graduate Studies, the International Student Support team, the Postgraduate Students’ Association, Libraries and Learning Services, and Career Development and Employability services.

Family benefits
Not only can you pay the same tuition fees as New Zealand PhD candidates, you can also bring your family with you when you study. There are additional benefits to this:
- Your spouse or partner can apply for an open work visa valid for the same duration as your student visa.
- Your dependent children can attend a New Zealand state school for the same rates as New Zealand children.3

Employment opportunities
Finding work during and after your PhD is a key concern for many doctoral candidates. Luckily, when you study in New Zealand as a full-time international PhD candidate, your visa will allow you to work alongside your studies. On completion of your PhD, you can apply for a three-year post-study open work visa through Immigration New Zealand. This allows you to work for any employer in New Zealand. During the period of this work visa, you may be eligible to apply for residence under the skilled migrant instructions, provided you meet the points requirement set out by Immigration New Zealand.

Find a research supervisor
Our online search tool FindaThesis will help you locate detailed information about projects, potential supervisors and more.

How to apply
Visit our website for a step-by-step application guide, and other helpful information about our PhD programme.

1 At the time of publication, the 2021 tuition fee had not been set. To be eligible for the domestic fee, you must reside in New Zealand for the duration of your doctoral programme. However, you may undertake research activities and conference overseas during your doctoral programme (for a cumulative total of no more than 12 months).

2 Aucklanders: World Research Fund (WRF) report 2018

3 PBRF report 2018

4 Schooling is free at state and state-integrated schools although parents are expected to meet some minor costs including school books, stationary and uniforms.

Mina Badiei
Mina comes from Iran and is pursuing her PhD in the School of Curriculum and Pedagogy, focusing on Early Childhood Education.

“I love children, and my passion is helping to provide a better education for them. Working as an Early Childhood teacher, I realised the importance of education and curriculum in the early years of children’s development. My doctoral thesis will investigate education and core experiences of toddlers, to explore how these very young children demonstrate agency and competency in decision-making.

“In the last years of my masters programme in Malaysia, I was searching for a world-class university to pursue my studies. My supervisor suggested the University of Auckland and, after finding out the high global ranking of the University’s Faculty of Education and Social Work and New Zealand’s post-study work visa options, I decided to apply for the doctoral programme.

“I am grateful for the guidance and advice my supervisors provide, and I like the peaceful environment of Epsom Campus – it has its own unique beauty in every season. I have always wanted an academic job at a university and my hope is that being a PhD student at the University of Auckland might help me find a job here.

“I thought it might be difficult to deal with being thousands of miles away from home, but Auckland’s rich culture and lovely people meant I didn’t feel homesick or lonely. I enjoy Auckland’s outstanding lifestyle, beautiful parks, landscapes and amazing beaches. Aucklanders are so friendly and welcoming, and living in Auckland is super cool.”
Take yourself global
Exchanges, short-term programmes, internships

Enhance your skills, academic potential and employability through one of our immersive international opportunities. Come to the University of Auckland and study in a third country to take your education even further.

The University of Auckland has comprehensive relationships with universities and international organisations around the world. 360 International provides access to overseas learning experiences through a diverse, inspiring and attainable set of opportunities.

Further your international study experience with our:
- Semester exchange programme
- Short-term opportunities
- Faculty-led programmes
- Student network programmes and travel grants
- Volunteer placements and internships abroad

Set up your traveller's profile and explore our programmes online in the Visa TMM system. Find links and more at www.auckland.ac.nz/360.

On-campus, you can attend our regular 360 International information sessions:
5pm every Thursday

Level 4, Student Commons

Academic pathway programmes
If we have already offered you a place that is conditional on meeting English language requirements, you can fulfil those requirements by successfully completing one of the University of Auckland English Language Academy pathway programmes. If you achieve the required grade, you will meet the University's English language requirements and will not be required to take IELTS or any similar test.

The University's English pathway programmes are designed to help you prepare for university studies. The courses cover note-taking, academic report and essay writing, exam preparation, presentation skills and communication techniques.

If you have not yet met the English language requirements for the University of Auckland, the English Language Academy offers programmes that can help you achieve your language goals. The ELA is also an accredited IELTS and PTE Academic testing centre.

English Language Academy
If you have not yet met the English language requirements for the University of Auckland, the English Language Academy (ELA) offers programmes that can help you achieve your language goals. The ELA is also an accredited IELTS and PTE Academic testing centre.

In the past year, the University of Auckland awarded over $15 million in scholarships to international students.

We work with external scholarship agencies and government bodies to give opportunities to international students who meet admission criteria.

For country-specific scholarships contact the relevant body in your country.

Asian Development Bank – Japan Scholarship Programme

Asian Development Bank

Scholarships and funding

University of Auckland International Student Excellence Scholarship: Worth up to NZ$110,000 for an undergraduate degree for new students with overseas secondary or post-secondary qualifications, or English Language Academy (ELA) students who have received a conditional offer. Up to 50 scholarships a year awarded.

University of Auckland International Student Entrance Scholarship: Worth up to NZ$70,000 for new international students from New Zealand high schools undertaking an undergraduate degree.

University of Auckland MBChB Graduate Entry – International Student Scholarship: Worth up to NZ$870,000 for up to five years for international graduate entry students to the MBChB. Paid as a fees credit.

Dean’s Asia Scholarships in the Faculty of Business and Economics: Covers tuition fees for Asian international undergraduate students to complete a Bachelor of Commerce or Bachelor of Property degree at the University of Auckland Business School.

University of Auckland Foundation Pathway High Achiever Award: Awarded each semester to high-achieving students completing a University of Auckland foundation programme at UT Education or Taylor’s College. No applications required.

New Zealand Excellence Awards: Worth up to NZ$5,000 for high-achieving students applying to a postgraduate programme in the Faculty of Engineering or Faculty of Science. Applications are open to new international students who hold Indian citizenship.

Postgraduate scholarships

University of Auckland International Student Excellence Scholarship: Worth up to NZ$110,000 for new international students who have received an unconditional offer of study, or English Language Academy (ELA) students who have received a conditional offer, to undertake a postgraduate diploma or masters (baugm) programme of 120 points or more. Up to 50 scholarships a year awarded.

University of Auckland International Business Master’s Programme: Worth up to NZ$5,000 for international students applying to the Master of Management, Master of International Business, Master of Marketing, Master of Human Resource Management, or Master of Professional Accounting.

Faculty of Education and Social Work Postgraduate International Student Scholarship: The main purpose of the scholarship is to support international students to enrol into postgraduate programmes at the Faculty of Education and Social Work, and successfully establish themselves in Auckland. Provides assistance with fees up to NZ$7,000.

University of Auckland Faculty of Engineering Doctoral Scholarship: Covers tuition fees and a stipend of up to NZ$15,000 (in 2020) per year for up to three years, to encourage and support academically excellent students to undertake full-time doctoral study on an agreed topic in the Faculty of Engineering.

New Zealand Scholarships

The New Zealand government provides scholarships through the New Zealand Aid Programme. The aim of the scholarships is to provide an opportunity for students from selected developing countries to pursue studies in development-related fields. The scholarships cover full tuition fees and a living allowance, as well as other related costs. Upon completion of their programmes, students are expected to return and contribute to the economic and social development of their home countries.

The scholarships are for postgraduate and PhD candidates from selected countries in Africa, Asia, Latin America and the Caribbean. Scholarships for applicants from eligible Pacific countries are available for undergraduate, postgraduate and PhD students.

Other development scholarships

Asian Development Bank (ADB) – Japan Scholarship Programme: Funded by the government of Japan, these scholarships aim to provide an opportunity for well-qualified citizens of ADB’s developing member countries to undertake postgraduate studies in economics, management, science and technology, and other development-related fields.

University of Auckland Law School’s Dean’s Doctoral Scholarships: Cover tuition fees and a tax-free stipend of up to NZ$19,000 per year for up to three years to encourage and support academically excellent students to undertake full-time doctoral study on an agreed topic in the Faculty of Law.

University of Auckland Senior Health Research Scholarships: These scholarships are open to international students who have worked for at least three years as health professionals (such as medical doctors, clinical psychologists, nurses and other clinical researchers), who wish to study at doctoral level in a health-related area. Covers tuition fees plus a tax-free stipend of up to NZ$40,000 per annum.

University of Auckland Faculty of Engineering Doctoral Scholarship: Covers tuition fees and a stipend of up to NZ$15,000 (in 2020) per year for up to three years, to encourage and support academically excellent students to undertake full-time doctoral study on an agreed topic in the Faculty of Engineering.

Entry requirements

We welcome applications from international students with New Zealand or overseas qualifications.

**English language proficiency**

If you are an international applicant and your first language is not English, you will need to provide evidence of your English language proficiency. You can demonstrate this by achieving the required score in an approved English language test, such as IELTS, or successfully completing an ELA pathway programme. All test results are valid for two years from the date on the test certificate and all English language requirements must be met within one test certificate.

The table below shows the minimum scores for admission to the University. However, some of our undergraduate and postgraduate programmes have higher requirements.

For more information about undergraduate English language requirements, see www.auckland.ac.nz/ug-english-reqs

For more information about postgraduate English language requirements, see www.auckland.ac.nz/pg-english-reqs

International students studying at New Zealand secondary schools

To be admitted to the University of Auckland you must achieve the New Zealand University Entrance (UE) standard and meet the entry requirements for your undergraduate programme you wish to pursue.

If you have National Certificate of Educational Achievement (NCEA), University of Cambridge International Examinations (Cambridge International), or International Baccalaureate (IB) qualifications, you will be given a rank score. The entry requirements for your programme will be expressed as the rank score you need to achieve in NCEA, Cambridge International or IB to guarantee you entry. Applicants with scores below these will still be considered, provided places are available.

Some programmes will also require you to have taken specific subjects and gained minimum credits in those, or have other requirements such as a portfolio, audition or interview.

For more information about entry requirements for The University of Auckland, please see www.auckland.ac.nz/entry-requirements

**Entry into a masters degree**

To enter a 120-point (one-year) masters programme, you must have completed one year of postgraduate study, following an undergraduate degree, in a related subject area at a recognised university, with the required GPA.

The entry requirements for a 180-point or 240-point masters vary according to the subject area of your specialisation. Usually, you must have completed a bachelors degree (or equivalent) in a related subject area at a recognised university, with the required grade point equivalent (GPE).

**Entry into a Doctor of Philosophy (PhD)**

Entry into a PhD is based on academic merit. You should also possess high-level critical research skills and theoretical understanding. You must be able to demonstrate an ability to carry out independent research and have completed a significant research project, dissertation, or thesis, at university.

You will need to have completed a masters-level qualification in a field related to your doctoral studies with the required grade point equivalent (GPE).

**Entry into a bachelors degree**

You must meet the equivalent of the New Zealand University Entrance (UE) standard (the minimum standard for admission to New Zealand universities) as well as the entry requirements and undergraduate English language requirements for the programme you wish to pursue. These are listed on our website. If you have completed a qualification not listed on our website, we will assess your application on its merits.

**Entry into a bachelors (honours) degree**

You will need to have completed an undergraduate degree from a recognised university, in a related subject area, with the required grade point equivalent (GPE). Exceptions are the BE (Honors) and the BAppSc(Hons) see our website for more information, including the specific entry requirements for your chosen programme(s).

**Entry into a postgraduate diploma**

Entry requirements vary according to your chosen subject area. You will need to have completed an undergraduate degree from a recognised university, in a related subject area, with the required GPA. Some programmes will require a higher GPA. See our website for more information, including the specific entry requirements for your chosen programme(s).

**Calculating your GPA/GPE**

Grades or marks achieved at the University of Auckland are given a Grade Point Average (GPA). Grades or marks achieved through prior study at other institutions are converted into a Grade Point Equivalent (GPE) at the University of Auckland.

To convert your grades into a GPA, use our GPA Calculator:

www.gpecalculator.auckland.ac.nz

*The online calculator provides an indicative guide only and does not guarantee a place to study at the University.

For further information on entry requirements, please see www.auckland.ac.nz/entry-requirements

International students outside New Zealand

If you are an international student, you must meet University Entrance, individual programme and English language requirements. Academic entry requirements are based on the grades you achieved in your prior study. Some programmes also require you to have taken specific subjects or have other requirements such as a portfolio, audition, interview or proven research capability.
Accommodation

Our accommodation provides a safe, comfortable and supportive environment in quality, fully-catered or self-catered residences. All are within easy walking distance of the City Campus, as well as many of Auckland’s main attractions. Your accommodation fees cover the cost of utilities such as water, electricity and internet. Bedding packs are available to purchase.

*All prices quoted are per week and reflect 2020 prices. They are subject to change for 2021. Discounted rates are available for students staying for a 52-week period or more.

Application dates

Applications for Semester One 2021 open on 1 August 2020.

Applications for Semester Two 2021 open on 1 April 2021.

To have the best chance of getting a place in a residence, you should apply for accommodation at the same time you apply for your academic programmes. Late applications will be considered if rooms are available.

Couples and family accommodation at the University is limited, especially for those applying outside of the standard academic year. We encourage those applying in Semester Two or between February and November to contact our Accommodation team, who can assist you in finding suitable accommodation that best fits your needs.

Apply online at www.accommodation.ac.nz

Private accommodation**

If living in a university residence isn’t for you, we can assist you with finding suitable private accommodation in Auckland.

Before you arrive in Auckland, we encourage you to read our e-book, Living in Auckland - A Student’s Guide, which is full of helpful information about locations, rental agreements, and the cost of living. This guide is available at www.auckland.ac.nz/living-in-auckland-ebook

We suggest you reserve temporary accommodation for your first few weeks in Auckland to allow time to familiarise yourself with the city, its surrounding suburbs and where you want to live.

Homestays – In a homestay you live with a family and have your own room. Meals and other services are provided. Please note that homestays are generally not close to the campus.

Private student accommodation and private residences – Our advisory service can assist you with information about student accommodation options near the campus.

Flatting – You share a house or flat with other residents and are responsible for paying the bills according to the details in the tenancy agreement.

*All prices quoted are per week and reflect 2020 prices. They are subject to change for 2021. Discounted rates are available for students staying for a 52-week period or more.

**We do not inspect or in any way guarantee the quality or availability of private accommodation. Do not under any circumstances sign agreements or pay deposits for any properties you have not seen. If in doubt, contact our private accommodation advisor.

Student services and support

Academic support

Libraries and Learning Services
Libraries and learning services provide resources, workshops and advice to help you succeed and complete your study.
In addition to the General Library, a number of specialist libraries cover the variety of subjects taught at the University. Your student online access allows you to search a diverse collection of electronic resources, including databases, e-journals and e-books, accessible anytime from anywhere. Within the libraries, you can access large collections of print, multimedia and microtext materials, including unique manuscripts and archive collections.
We offer workshops to improve your academic skills, covering topics such as writing skills, finding course readings and articles, referencing, exam preparation, literature searching, presentation skills and thinking critically.
Speak to a Learning Adviser or Subject librarian to get advice on improving your academic skills and finding information for your assignments.
Libraries and Information Commons (IC) facilities provide more than 4,000 study spaces, many with computer workstations and access to printers, scanners and photocopiers.
IC Helpdesks provide support for student computing resources and services including student email, internet access, the wireless network and student file storage.

www.library.auckland.ac.nz

English language for university study
The University offers free services to help you improve your English language proficiency while you study. (For information about English courses to improve your English language skills while you study, see pg. 33.)

Diagnostic English Languages Assessment (DELSA)
The DELSA Programme is designed to help students who may need to improve their academic language skills in order to succeed in their studies.
DELSA is a free check of your academic English language skills. Your results will not exclude you from courses you are already enrolled in and will not appear on your official academic record.
Students begin with the DELSA Screening, which takes less than 30 minutes. Depending on your results, you may be asked to follow the Screening with the two-hour DELSA Diagnostic, which consists of a reading, listening, and writing task. After the Diagnostic, you will receive individual advice about the options available to enrich your academic language ability.

www.delna.auckland.ac.nz

Orientation
The International Office arranges an Orientation programme for new international students in Semesters One and Two. International Orientation is designed to welcome you and give you all the information you need about the University and being in Auckland. In addition, the University provides Faculty Orientation for all new students at the start of Semesters One and Two. You will also have the opportunity to meet new people and make friends at a range of social and cultural activities.
The Business School provides an Orientation for Business coursework masters students in Quarters Two and Four.

www.auckland.ac.nz/internationalorientation

UniGuides
UniGuides are current students from your faculty who can help you find your way around campus and answer your questions during the first few weeks of the semester. You will meet your UniGuide at your Faculty Orientation Day.

www.auckland.ac.nz/unguide

Personal support
Meet and greet
The International Office provides a free airport transfer service for all new international students arriving in Auckland. This is a great way to avoid the stress of finding your own way to your accommodation. We will meet you and give you information to help you settle in to life in Auckland. A web link for this service is included in your Offer of Admission email.

www.delna.auckland.ac.nz

Career Development and Employability Services
Our award-winning Career Development and Employability Services (CDES) have a designated International Career Development Consultant who is responsible for providing specialised services. These will support your successful transition into work while you have completed your studies. Special events such as careers expos, recruitment events, networking opportunities, workshops and employer presentations can help you to engage with employers and understand the New Zealand job market.
CDES online tools, workshops, events, job board and personalised services can assist you to identify the opportunities available to you. They also provide language-learning materials and skills to help you compete in the New Zealand job market.

www.cdes.auckland.ac.nz

Childcare
If you need to organise childcare, there are six on-campus early childhood centres, offering places to children aged from three months to five years. Dedicated parent spaces provide facilities for caregivers and children, and there is a child-friendly study space in Old Choral Mall. Childcare fees are in demand, so apply early.

www.auckland.ac.nz/parent-student

University Health and Counselling Service
If you have any health concerns during your time at the University, our team of professional, experienced and friendly clinical staff are here to help you. As an international student, you will be able to make an appointment at our campus clinics for general health problems, urgent care needs or accidental injuries. For after-hours care, we have a registered nurse who is available by phone through the night or at any time our clinics are closed.
We provide a counselling service that can help you get back on track if you feel things are becoming too difficult to manage on your own. We offer brief therapy, daily duty slots for urgent counselling, group sessions, academic consultations and a number of online resources.

Children's Learning Services
Childcare services are in demand, so apply early.

www.auckland.ac.nz/childcare

International student support staff
Being away from home is a challenge in itself. To assist you, the University has facilities and extensive support for international students, whatever your background or needs. Our team of international student support staff is available to help you with a range of issues, including immigration, health and wellbeing, financial advice, accommodation and personal support.

www.auckland.ac.nz/student-support-and-services

Volunteer Hub
Volunteering is a great way to meet friends, get to know the city and gain new skills and experience. The Volunteer Hub provides the opportunity for volunteer for a wide range of organisations and community projects. You can also get official University recognition for your volunteering activities on your transcript.

www.auckland.ac.nz/volunteer

Student services and support

Recruitment and sports
Sport and Recreation provide a wide range of facilities and services to students.
If you’re keen on sport you could get some friends together and sign up for one of the UNIMHS Social Sports Leagues, or represent your faculty in one of 3.3 sports in the Interfaculty Sports Championship.
Recreation membership includes access to a wide range of group fitness classes, weights and cardio equipment. Additional programmes and services are also available such as bootcamps, self-defence, personalised programmes and much more.

Recreation and sports

**Essential information**

**Student visas**
You must apply for a student visa to cover the period you intend to study in New Zealand. You must show evidence you have been accepted into a programme, paid your tuition fees and have sufficient funds to cover your living costs while in New Zealand. You must apply for your student visa before entering New Zealand. Full details on the necessary requirements are available through Immigration New Zealand. www.immigration.govt.nz

**Eligibility for health services**
Most international students are not entitled to publicly-funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment if you do not have appropriate insurance. Full details are available through the Ministry of Health. www.health.govt.nz

**Health and travel insurance**
All international students are legally required to have appropriate health and travel insurance. The University has a recommended policy that meets New Zealand government requirements. When you enrol you will automatically be covered by Studentsafe Indiabank University, and the insurance premium will be added to your student account. You will receive details with your offer of admission letter from the University. www.auckland.ac.nz/is-insurance

**Accident insurance**
The Accident Compensation Corporation (ACC) provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand. But you may still be liable for other medical and related costs. www.acc.co.nz

**Employment**
If you are enrolled in a research masters or a doctoral programme you will be eligible for unlimited work rights. Under certain circumstances, other student visa holders may work part-time or full-time (during scheduled University vacations) or to meet course requirements for practical work experience. You should refer to the Immigration New Zealand website for up-to-date information on application procedures for obtaining any variation of the conditions of your student visa. www.immigration.govt.nz/study

**Living costs**
Generally you should allow approximately NZ$21,000–$35,000 per year (or NZ$15,000–$26,755 per week) for general living costs, including accommodation, food and transport. Our International Student Support staff are available to assist you with budgeting advice if necessary.

**International tuition fees 2021**
The University of Auckland calculates fees according to the courses you take within your degree or diploma programmes. Fees vary between faculties, and sometimes within a faculty. The tables below give the estimated annual tuition fee based on enrolment in 110 points. Visit our website for the most accurate and up-to-date information on international tuition fees: www.auckland.ac.nz/studentfees

You are also required to pay a student activity fee. This is calculated on a per point basis. The student activity fees for 2021 will be set later in the year. As a guide, the student activity fee for 2020 was calculated as NZ$8.6 per point (GST inclusive).

Expect to pay about NZ$21.00 per year for books and stationery. Some courses also have fees for field trips or site visits.

| Doctor of Philosophy (PhD) | $7,960.40 |

*These costs are approximate, and are as at January 2020. All prices are approximate. You can consult these prices to your own country’s currency on www.auckland.ac.nz/studentfees

During the period of that work visa, you are eligible to apply for permanent residency if you meet immigration New Zealand requirements. www.immigration.govt.nz/studywork

In some departments, masters and PhD students might obtain work as paid teaching assistants in undergraduate teaching courses for approximately 6–10 hours per week. This usually means acting as a laboratory demonstrator or teaching assistant for groups of undergraduate students. Marking duties may also be involved. Activity as a teaching assistant provides valuable professional and teaching experience. For PhD students, we recommend that you work no more than 100 hours per year.

**Other costs to consider**
Medical visit
Due to the nature of the degree, PhD students must reside in New Zealand for the duration of their doctoral programme. However, students may undertake research activities overseas for a cumulative total of no more than 12 months. Please note: the domestic fee arrangement for international students applies only to Doctor of Musical Arts, Doctor of Music, Doctor of Musical and Health Sciences. The domestic fee for the MBA degree is not set until time of publication.
