Postgraduate
Prospectus 2020
Honours | Postgraduate diplomas and certificates | Masters | Doctorates
Welcome to the University of Auckland

Postgraduate study at New Zealand’s leading university¹ offers the opportunity to fulfil your academic and career potential, and make a significant contribution to society.

Whether you choose one of our taught or research programmes, you can expect to challenge your thinking, learn new skills and position yourself for the next step in your career by gaining a qualification from New Zealand’s highest-ranking university for graduate employability.

We are globally placed as the most innovative university in New Zealand² and one of the world’s top five emerging leaders in entrepreneurship³. As you pursue advanced study and your passion for your subject, you could be involved in the discovery and development of innovations that improve our social, cultural, economic and environmental wellbeing.

As well as innovation through research, we offer specialised and innovative degrees such as the Master of Earthquake Engineering that meet the demands of an ever-changing world.

Our more than 11,000 postgraduate students play an important role in the University’s innovation ecosystem and are a valued part of our academic community. As such, we offer a wide range of support and opportunities, including:

- Over 130 taught and research postgraduate programmes
- $40 million in postgraduate scholarships and awards each year
- Extensive pastoral and learning support

I invite you to join us at the University of Auckland and discover the myriad opportunities for academic enrichment and career advancement that postgraduate study has to offer.

STUART MCCUTCHEON
Vice-Chancellor
The University of Auckland

“I believe doctoral research will help me broaden my horizons in the interface between Māori culture and environmental engineering.”

Nona is a PhD Candidate in Environmental Engineering. His thesis aims to facilitate more efficient collaboration between Māori communities and non-Māori parties to utilise and develop geothermal resources.

“As a member of Te Ārawa and Tainui iwi, I am regularly engaging with various members of Te Ārawa and Ngāti Whakatāne hapū and obtaining historical and cultural mōhiotanga (knowledge) of Māori communities’ spiritual and physical links with geothermal resources in the central North Island. I also explore the different worldviews associated with geothermal development to pursue holistic decision-making and ensure cultural, environmental, social, and economic sustainability.

“Within geothermal development, Māori communities are under-benefited, and with little sustainability, our Te Ārawa and Tuhuhuātua people are at risk of losing the very gift that our ancestors have thrived with for hundreds of years.

“I am originally from Rotorua where I was immersed in Māori culture and language, and utilised geothermal resources as a member of the local community. By combining my cultural heritage with an education from a western engineering institution, I have the ability to help facilitate sustainable change and increase cultural awareness in the engineering space for our people.

“I hope to raise our younger generation’s awareness of past, present and future issues that Māori communities may face if the current direction of geothermal utilisation continues.”

Nona Hohepa-Taute is a PhD candidate in Environmental Engineering. He is a recipient of a Ngāti Mākino iwi Authority scholarship and GNS Science Doctoral Research Award.

Get a taste of postgraduate study

Meet our academics and current students, explore our campuses and see what postgraduate study could be like for you.

Postgraduate Week
20–24 May 2019
Start your postgraduate journey at Postgraduate Week. Don’t miss out on the chance to attend information events, panel discussions and one-on-one advice sessions to inspire your postgraduate study. Registrations are essential.
www.postgradweek.ac.nz

Postgraduate Study Webinars
June and September 2019
If you can’t make it to Postgraduate Week, our Postgraduate Study Webinars will give you detailed insight into various programmes. The webinars will also provide you with the opportunity to ask the academic supervisors specific questions directly. Registrations are essential.
www.auckland.ac.nz/pg-webinars

3 Minute Thesis
The 3 Minute Thesis competition gives postgraduates 180 seconds to explain the gist of their entire thesis. It’s fun, fast-paced and an unmissable date for your diary, whether you’re getting inspired by others or sharing your own research.
www.auckland.ac.nz/3minutethesis

Exposure – Postgraduate Research Exposition
Exposure is both competition and showcase, bringing together some of the best postgraduate research from across the University. It’s a fantastic opportunity for our postgraduate students to gain public recognition for their research and to network with peers, academics and industry representatives.
www.auckland.ac.nz/exposure

Watch Nona speak about his postgraduate experience at www.auckland.ac.nz/gradvids
Postgraduate research

Postgraduate research is a cornerstone of the University of Auckland. The breadth of research being conducted at the University means we offer a wide range of disciplines to our research students. There is a wealth of opportunities for you to undertake research as a postgraduate student: from small research projects to in-depth doctoral theses.

Leading researchers
The University has more internationally and nationally esteemed researchers than any other tertiary institution in New Zealand. This means you could be working alongside internationally respected researchers on a project of global significance, whilst building your international networks and a reputation of excellence.

Be part of our research community
As a postgraduate researcher at the University of Auckland, you will be part of a community of like-minded postgraduate scholars that has the largest number of research degree completions in the country.

Renowned research-led University
The University of Auckland is recognised as having the greatest depth and breadth of research activity of any university in New Zealand. The University supports the work of eight faculties covering a comprehensive range of disciplines, as well as two internationally-renowned Large Scale Research Institutes. The University is also host to five Centres of Research Excellence (CoREs), partner on another five, and hosts two National Science Challenges.

$40 million worth of postgraduate scholarships and awards are on offer each year.

FindaThesis
Find doctoral and masters research opportunities at the University on FindaThesis. Whether you’re searching by area of interest or looking for a specific project, the online database provides detailed information about available projects, potential supervisors and more.

www.findathesis.auckland.ac.nz

You can also browse the University’s staff directory to find potential supervisors who research in your area of interest.

www.unidirectory.auckland.ac.nz

Rebecca is a graduate of the Doctor of Philosophy in Biological Sciences and a lecturer in Wine Science at the University of Auckland. Her PhD research investigated how different temperatures used during wine fermentation impacts the metabolism of yeast.

“I chose to pursue my doctorate because it was exciting to be able to select a PhD topic that was interdisciplinary, combining my love of genetics and biochemistry. My decision to undertake my studies at the University of Auckland was for its strong research culture and world-class science performance.

“My PhD has provided me with many opportunities. At an academic level, my research resulted in the publication of three journal articles in highly-regarded journals in the field of wine science. I was also able to attend three international conferences and present the work from my thesis.

“At a professional level, I was able to work for my supervisor as a lab technician for a year after my PhD, which led to developing commercial wine yeast strains along with some teaching experience. This led to postdoctoral and teaching work which was essential for getting my academic position at the University of Auckland.

“I have also made lifelong friends and developed networks for research collaboration.”

Rebecca Deed is a recipient of the Janet Bone Memorial Prize, the Frances Briggs Memorial Prize in Plant Sciences, and the Bright Futures Doctoral Scholarship.

“I learned so many new skills during my postgraduate studies, and it allowed me to develop both professionally as a scientist and grow as a person.”

$40 million worth of postgraduate scholarships and awards are on offer each year.
As a Pacific student, the University’s Māori and Pacific Admission Scheme (MAPAS) provides valuable academic and pastoral support that is second to none.

Julie recently completed a bachelor of health sciences (nursing), investigating the perceptions of Māori stroke survivors and their whānau in the use of a robotic aid to assist rehabilitation. She will be extending her research into a PhD, focusing on the epidemiology of cardiovascular disease among Pacific peoples living in New Zealand.

“Cardiovascular disease is the leading cause of preventable death both in New Zealand and globally, and Pacific people in particular experience a disproportionately higher burden compared to the general population.

“There is a lack of Pacific health researchers, and a greater lack of Pacific epidemiologists in New Zealand. I decided to pursue postgraduate study to help change this and do my part to improve the health experiences and outcomes of Pacific people in New Zealand.”

“The reputation of the University of Auckland was one of the reasons I decided to study here. The calibre of the academic staff and the teaching environment is very high, and there are many internationally-recognised academics in the Faculty of Medical and Health Sciences.

“My postgrad study helped me to determine what fuels my passion, and where I want to situate myself in the health workforce. I liked that classes were a lot smaller and you could build networks and relationships with peers, staff members and academics who become colleagues when you complete your studies.”

Julia Winter-Smith is a recipient of the Ministry of Health Anna scholarship and the Pacific Health Workforce Awards.

As one of the world’s leading faculties for humanities and social sciences, we are passionate about making a difference and pushing the boundaries of knowledge and understanding.

Our research strengths include:
- Archaeology
- Conflict and terrorism
- Cybercrime
- Disaster recovery
- Histories, cultures and identities
- Indigenous knowledge and development
- Linguistics and language
- Policing and restorative justice
- Public policy
- Refugees and transnational migration
- Sustaining environments
- Transforming societies

Through your postgraduate study, you will develop specialist knowledge alongside advanced capabilities in critical and creative thinking, written communication and cultural awareness. Our graduates go on to work in diverse fields such as archaeology, international relations and development, museums and cultural heritage, and policy-making.

Auckland Bioengineering Institute

The Auckland Bioengineering Institute (ABI) is a world-leading research institute that aims to improve medical diagnosis and treatment of injury and disease, and to develop new assistive devices for the disabled. Our focus on research excellence, clinical application, entrepreneurship and commercialisation adds value to society and to the New Zealand economy.

Our research strengths include:
- Biophysically-based computational models of the human body
- Innovative medical devices and instrumentation
- Biomechanics and augmented human technologies
- Engineering for clinical technologies

ABI has many international collaborations in fields such as musculoskeletal and gastrointestinal modelling, cardiac, lung, and women’s health research, plus augmented and virtual reality. We promote a culture of entrepreneurship and patient focus.

Our subjects are ranked in the world’s top 50

- Education
- Geography
- Pharmacy & Pharmacology
- Nursing
- English Language and Literature
- Philosophy
- Sports-related subjects
- Law
- Linguistics
- Anthropology
- Psychology
- Archaeology
- Anatomy and Physiology

Our researchers work in a number of disciplinary areas:
- Accounting
- Commercial Law
- Economics
- Finance
- Information systems
- International Business
- Management
- Marketing
- Operations Management
- Property

We also host research institutes and centres that focus on long-term programmes of high relevance, such as building New Zealand’s business connections with Asia, retirement policy, Māori business development, and energy and resource use.

Creative Arts and Industries

The Faculty of Creative Arts and Industries is the University’s centre of creative research, teaching and practice within the fields of architecture, urban planning, urban design, music, dance and contemporary art.

Key research strengths include:
- Architecture and planning: urban and architectural resilience and sustainability, urban and spatial planning and place making, design research, the history, theory and pedagogy of the built environment, including Māori and Pacific-focused research.
- Dance Studies: choreography, performance, community dance, dance education, ethnohistory, history and technology.
- Elam School of Fine Arts: curatorial, critical and theoretical research contributing to local and international contemporary arts discourse.
"I enjoy the independence of postgraduate study. Having a major project to manage is a great challenge that is very exciting to me."

Orally from the UK, Jararah is a recipient of the University of Auckland Doctoral Scholarship. After completing a summer research scholarship which sparked an interest in further postgraduate study, Jararah is now studying towards a PhD in Bioengineering.

"My work focuses on cardiac mechanics using the Auckland bioengineering institute's cardiac dissection. The title of my thesis is 'transient dynamic performance of cardiac muscle during interventions,' where an intervention is anything that modifies the contractile state of cardiac muscle, be that stimulus frequency, muscle length, or use of pharmacological agents.

"By performing more physiology-related experiments, we can get a better understanding of how the heart works. This is especially useful when looking at diseased tissue (e.g. diabetic) where we can figure out what changes or goes wrong, providing us with information about potential targets for treating these conditions.

"I chose the University of Auckland due to its world-leading instrumentation for the study of cardiac muscle, along with the financial security of a doctoral scholarship. The high academic ranking and distinguished reputation of the University was certainly a consideration in my decision to come here for my undergraduate degree. At the time it was the only New Zealand university that offered biomedical engineering and even now, the degree's offer is unparalleled in the country.

"Studying bioengineering at the university is something special - it’s a relatively small group which means that you get to know everyone pretty quickly. AB has a great social committee which organizes events catering to all types of people. I’ve made so many great friends through these events that I would have otherwise never met." Jararah Dowrick is a recipient of the University of Auckland Doctoral Scholarship.

- Music: music performance, composition, improvisation, music in historical and social contexts, music education and pedagogy, music technology, music/health

Education and Social Work

Research in the Faculty of Education and Social Work contributes to improving the educational and social wellbeing of society. Our research harnesses the vast potential of a university to bring to education, social work, counselling and social and community leadership.

Five sub-themes summarise the key spheres of our research: advancing equity, enhancing indigenous opportunities, leading learning, promoting life-long wellbeing, and supporting intercultural inclusiveness.

Research strengths include:
• Applied theatre in education
• Education and schooling success for diverse communities within New Zealand
• Educational leadership
• Health education, physical education and sports studies
• Knowledge in education
• Languages and literacies
• Pacific education, languages and communities
• Māori and indigenous language revitalisation, language education and language policy

Social work practice strategies for promoting the wellbeing of diverse populations.

Our collaborative relationships with schools and communities of practice have enabled the faculty to secure significant funding for its research and professional followships, along with postgraduate study scholarships. His PhD for outstanding researchers from New Zealand and around the world.

Engineering

The Faculty of Engineering covers a wide range of innovative and exciting research - from pure to applied - with demonstrable positive impacts on society, economics and technology, and a commitment to ensuring we lead the way towards a sustainable future.

Some of our major research areas include:
• Energy
• Food
• Healthcare technology
• Infrastructure
• Manufacturing
• Robotics
• Smart materials

We believe in inclusivity - our postgraduate students are valued members of our research teams. Our aspirants are further strengthened through collaborations with industry and other faculties and research institutions, so you’re exposed to the best knowledge on offer.

Law

As New Zealand’s leading law school, we have a tradition of excellence proven by a strong international reputation for research. Our strength is reflected in the calibre of our award-winning lecturers and supervisors. Auckland Law School has leaders in all major areas of the law.

The New Zealand Centre for Information and Communications Technology Law recently became our fourth renowned research centre, alongside the New Zealand Centre for Environmental Law, New Zealand Centre for Human Rights Law, Policy and Practice, and New Zealand Centre for Law and Business.

Our broad range of research areas include:
• Contract, torts, equity and other areas of private law
• Corporate and commercial law
• Criminal law and justice
• Family and relationships law and policy
• Indigenous peoples and the law
• International and comparative law
• Land and environmental law
• Legal history and theory
• Litigation and dispute resolution
• Public law, including constitutional and administrative law
• Tax and regulations

Liggins Institute

The Liggins Institute is a world-leading centre for research into maternal, fetal and child health, nutrition, development, epigenetics and translational and implementation science.

Our mission is to improve life-long health through excellent research into the long-term consequences of early life events.

Our multi-disciplinary approach enables us to view 21st century health problems from different angles at once, and our four key research themes reflect this:

• Determinants of a healthy life is a groundbreaking area of science that has the potential to understand why and how non-communicable diseases develop.
• Healthy mothers, healthy babies focuses on the importance of a mother’s environment, diet and lifestyle prior to and during pregnancy for her child’s lifelong health.
• Nutrition for lifelong health encompasses every stage of life from the health of parents at conception, to the impact of diet on muscle health in adulthood.
• Research to reality is finding the best ways to translate our research findings into changes in clinical practice.

From cellular research to clinical trials, the Liggins institute focuses on the practical application of knowledge, because we know that intervening in people’s health early has the biggest impact on lifelong health.

Medical and Health Sciences

At the Faculty of Medical and Health Sciences we are committed to improving the health of our local, national and global communities through excellence in research. Our faculty is the largest biomedical research faculty in New Zealand, with a proud history of attracting, and growing pre-eminent researchers and talented students, as well as generating high levels of research funding.

Our faculty has fostered a very strong research culture and is host to a number of internationally renowned and highly regarded research programmes.

Research strengths include:
• Audiology
• Bioengineering
• Biomedical imaging
• Cancer, cardiovascular biology
• Clinical medicine
• Developmental biology
• Genomics
• Immunology
• Neuroscience
• Ophthalmology
• Population health
• Reproductive biology

A strong culture of collaboration exists at all levels through the faculty, allowing vital links across faculty, between faculties with other tertiary research institutions.

Science

The Faculty of Science is New Zealand’s leading and largest science faculty. The breadth of scientific research is diverse and a variety of high-quality postgraduate research options are available.

Science plays a vital role in addressing the key issues that confront us and future generations. For this reason, research in the faculty is regularly successful in funding rounds for a broad range of projects, from searching for early-life in terrestrial hot-spots to improving the process for producing milk powder.

We provide a rich research environment for our students. Our many research strengths include:
• Knowledge sciences
• Our world and universe
• Arhu aroha, aroha ma: Science in society
• Healthy people, healthy communities
• Food, food production and nutrition
• Sustainable futures
• Future materials and technologies
• Computational biology

Our faculty benefits from strong collaborations within the global academic community. Our relationships with commercial industry are an important aspect of scientific research and innovation, and we are proud of our significant links to the Crown Research Institutes of New Zealand.

400

Doctorates were conferred in 2019. Our postgraduates’ success is at the heart of our research-intensive University.
From innovation workshops and challenges to supporting start-ups, the University has a strong innovation culture, where every student has the opportunity to develop and pursue their entrepreneurial potential.

My postgraduate studies have provided me with a wider base of knowledge, broadened my mind and increased my confidence in the workplace.

The University of Auckland has been identified as one of the world’s leading entrepreneurial universities and the most innovative university in New Zealand. We are committed to developing entrepreneurial-minded students and graduates in an innovative environment.

- Many of our academics and postgraduate students are involved in research that has the potential to benefit our society and economy.
- We offer extensive support to students and staff to develop and commercialise their research.
- We provide opportunities and activities to develop your innovation and entrepreneurship skills.
- Network with like-minded students and academics in an environment where collaborations have led to start-ups and spin-out companies.
- We offer postgraduate programmes in innovation and entrepreneurship that will stretch and develop those working, or seeking a career, in commercialisation.

Velocity

Velocity is the University of Auckland's globally renowned entrepreneurship programme. It is student-led, supported by the Centre for Innovation and Entrepreneurship, and runs year-round seminars, workshops and challenges.

Velocity's 100K challenge encourages those with a business or social enterprise idea to test its potential. Shortlisted entrants win a place in the Velocity Launch Pad Programme, where they receive mentoring and workshops. Finalists compete in the $100K Velocity Grand Final for seed-cash and support to grow their venture.

Velocity has invested more than $200 million in innovation and has attracted more than $200 million in investment.

www.velocity.auckland.ac.nz

Commercialise your research

The University offers a range of opportunities for postgraduate students to explore the potential to commercialise your research. Courses and workshops are offered by the Centre of Innovation and Entrepreneurship, Uniservices, and Career Development and Employability Services that:

- Introduce you to the concepts of entrepreneurship, intellectual property and commercialisation
- Help you develop the tools and skills needed to attract investment
- Help you develop networks and a prepare for a career in R&D

Entrepri$$ng Researcher module

The Enterprise Researcher module helps doctoral candidates develop their capacity for research enterprise. This online module is open to all doctoral candidates and will help you increase the impact of your research and diversify your career options.

IP Protection and commercial development

At Uniservices, we bring ideas to life. We partner with the best minds at the University of Auckland and business to apply intelligent thinking to ideas that have the potential to change the world.

Funding and investment

- The University of Auckland Investors’ Fund, managed by Uniservices, is a $2 million seed investment fund that is accessible to University researchers and students. The fund supports the commercialisation of ideas and inventions, enabling researchers to transform their research into businesses and new products.
- Four Return on Science investment committees, and the student-led Momentum programme, provide support to founders and inventors.

www.uniservices.co.nz

Commercialisation and entrepreneurship programmes

The University’s Centre for Innovation and Entrepreneurship offers both a postgraduate certificate and a master’s programme in innovation and entrepreneurship. The Centre offers programmes in innovation, entrepreneurship, intellectual property and commercialisation and entrepreneurship to entrepreneurial-minded students and graduates.

www.uniservices.co.nz

"There seems to be a gap between theory and practice, and my postgraduate degree has taught me how to begin to bridge the two. This has been invaluable in the workplace."

Paul is a Master of Commerce in Marketing graduate and now works at Goodman Fielder. Prior to his masters, Paul completed a Summer Research Scholarship at the Business School, conducting research on the consumer behaviour of Pacific adolescent males around sugar-sweetened beverages.

"I was still curious to learn more about marketing when I completed my bachelor's degree. The work I did on the Summer Research Scholarship sharpened my skills of critical thinking and academic writing, which were required while pursuing my masters. I also knew that a masters degree would give me an edge when seeking employment.

"Longer classes at masters level meant that we could go into much more detail on topics. There was a lot more student engagement, which allowed us to share ideas and learn from each other. I really liked that we had a lot of international students, it meant that discussions in the classroom included experiences and stories from all over the world.

"I liked that we were being taught some of the new frontiers of knowledge, especially in marketing because it would put us in a much better position in the workforce. I hope that the knowledge and skills that I have gained will take me around the world and elevate me to strategic leadership roles.

"My experience at the University was amazing and I made a lot of friends, fond memories and connections - especially my supervisor Dr Bodo Lang. I have not ruled out a return to complete connections - especially my supervisor Dr Bodo Lang and I made a lot of friends, fond memories and..."

Postgraduate study enables you to deepen your understanding of your subject, develop specialist skills and knowledge, follow your passion for research, stand out from your peers in a competitive job market or change careers. We offer a wide range of postgraduate programmes to help you reach your goals.

Our postgraduate programmes

Pathways to our postgraduate programmes

- Bachelors degree
- Masters degree
- PhD and other doctorates
- Postgraduate diploma

- Entry to some 180 and 240-point masters may be possible with a bachelor's degree
- Bachelors (honours) degree

Bachelors (honours)

Extend the knowledge you gained in your undergraduate degree with aBachelor degree (honours) degree. Our honours programmes are a great way to explore an area of interest from your undergraduate study in greater depth, develop research skills and give yourself an edge in the job market. Honours degrees are also seen as a pathway to further study. Bachelor (honours) programmes usually combine taught courses with a research project. Some honours can be completed as a research-only programme.

Further study

A bachelor (honours) degree can lead onto a masters or, if you perform well in your dissertation, some subject areas may allow direct entry to a doctoral programme.

Programme entry

You must have completed an undergraduate degree at a recognised university (or similar institution) in a field relevant to your specialisation, typically with a GPA of 3.0 or 4.0. Some programmes may require higher scores.

Postgraduate diploma

Postgraduate diplomas offer the opportunity to build on your major undergraduate subject and can be an alternative to a bachelor's (honours) degree. Some postgraduate diplomas provide specialised training and the opportunity for advancement in your profession. Postgraduate diplomas are normally completed by taught courses, but may include practical training, formal study or a research project.

Further study

Postgraduate diplomas can provide an alternative pathway to masters programmes and, in some disciplines, can be used as the first year of enrolment for a two-year masters programme.

Programme entry

You must have completed an undergraduate degree at a recognised university (or similar institution) in a field relevant to your specialisation, typically with a GPA of 3.0 or 4.0. Some programmes may require higher scores.

Masters

We offer an extensive range of masters degrees to allow you to increase your knowledge in your subject, gain a professionally-accredited qualification, follow your passion for research or change career whilst gaining an advanced qualification.

Taught masters provide advanced specialist training in your field and are usually completed by taught courses only, although some can include a dissertation or research project.

Research masters are completed by thesis. They offer the opportunity to follow your research passion whilst developing advanced research skills.

Conversion masters enable you to study a masters in a different subject to your bachelors degree. To find out if a conversion masters is available in your area of interest, contact the postgraduate advisor for that discipline: www.auckland.ac.nz/pgadviser

130 traditional disciplines to emerging cross-disciplinary subjects.

120, 180 and 240-point masters programmes

Some of our masters are available as 120-point (1 year full-time), 180-point (18 months full-time) or 240-point (2 years full-time) programmes, offering options for direct entry with a bachelor's degree (to some 120 and 240-point programmes) or a bachelor's (honours) or postgraduate diploma (to 120-point programmes).

Further study

A research masters degree can lead to entry to a doctoral programme.

Master's degree

Further study

Taught masters programmes are on offer across 180 subjects, including PhDs in 100 different subjects. Options range from..."
“The Master of Social Work has enabled me to progress with research and explore wider issues in youth forensic services, thus improving my own practice.”

“I have been working as a social worker in a youth forensic team since 2011, providing mental health assessment and interventions in an Oranga Tamariki youth justice residence. My masters research focused on how Oranga Tamariki experienced clinical information sharing, and also how my colleagues around New Zealand were practicing information sharing within this context.

“This research project was the first of its kind. As a result of the rich qualitative data obtained, I was able to develop a model of information sharing for this context. I was thrilled with one of the outcomes from the research – the first-ever national youth forensic forum that was held in Auckland in October 2018. This forum was a chance for the youth forensic workforce to come together for the first time, to build connections and to discuss models of service. I’m even more excited that there is motivation from this group of clinicians to continue this event on an annual basis.

“I decided to pursue this postgraduate qualification after practising as a social worker for over a decade. My hope was to explore some very practice-based issues in my field. What I gained was even more valuable, as the research project itself led to the formation of strategic relationships with both Oranga Tamariki and youth forensic teams, as well as increased confidence in research and specialist subject knowledge.

“Chose the University of Auckland because of the excellent reputation of its social work programme. I was already familiar with many of the teaching staff through my own social work practice, and so it was an easy decision to pursue my postgraduate studies here.”

Jo Appleby has recently completed a Master of Social Work and was supported in her study by the A+ Trust and the Māori Education Trust.

Programme entry

130-point masters
You must have completed one year of postgraduate study, following an undergraduate degree, at a recognised university (or similar institution) in a field relevant to your chosen specialisation. Four-year bachelors degrees will be considered when the final year consists of postgraduate-level study.

You will typically require a GPA or GPE of 5.0. If you are applying for the Master of Engineering Studies, a GPA or GPE of 4.0 is required. Some programmes may require higher scores.

180 and 240-point masters
You must have completed an undergraduate degree at a recognised university (or similar institution) in a field relevant to your specialisation (with the exception of conversion masters), typically with a GPA or GPE of 5.0. Some programmes may require higher scores.

Conversion masters
You will need an undergraduate degree with good passing grades. Requirements vary, so please check the relevant programme details.

www.auckland.ac.nz/programmefinder

Doctoral degrees
A doctoral degree gives you the freedom to follow your passion and undertake advanced research in your area of interest. You can develop highly transferable as well as specialised research skills relevant to a wide range of careers. Your doctoral candidates work closely with at least one appointed supervisor and many work in a team of researchers.

The Doctor of Philosophy (PhD) is available in 100 different subjects and is offered in all faculties and large-scale research institutes. The University also offers six named doctorates: Doctor of Clinical Psychology, Doctor of Education, Doctor of Fine Arts, Doctor of Medicine, Doctor of Music and Doctor of Musical Arts.

For the PhD, you will prepare a substantial thesis based on original research that contributes significantly to knowledge and understanding in your discipline. Your thesis may include publications you have written under supervision for this degree or, for those in a creative arts or design discipline, you may present a body of creative work for assessment with your thesis.

We offer a wealth of English-language enrichment opportunities to support your studies. All new doctoral candidates take a Diagnostic English Language Needs Assessment (DELNA) as part of their provisional goals. This helps us allocate you any English-language support you might need to ensure your academic success (see page 49 for more information on English-language support).

Calculating your GPA/GPE

Grades or marks achieved at the University of Auckland are given a grade point average (GPA).

You must be able to demonstrate an ability to carry out independent research and have completed A research project, dissertation or thesis, at university.

If you have New Zealand postgraduate qualifications, you need to have completed a postgraduate bachelor’s (honours) degree with first class or second class (division 1) honours, or a masters degree with first class or second class (division 1) honours, in a field related to your doctoral studies.

Your acceptance into a doctoral programme is dependent on the availability of appropriate supervision and study facilities.

Programme entry

Acceptance to our doctoral programmes is based on academic merit. You must be able to demonstrate an ability to carry out independent research and have completed a significant research project, dissertation or thesis, at university.

If you have New Zealand postgraduate qualifications, you need to have completed a postgraduate bachelor’s (honours) degree with first class or second class (division 1) honours, or a masters degree with first class or second class (division 1) honours, in a field related to your doctoral studies.

Your acceptance into a doctoral programme is dependent on the availability of appropriate supervision and study facilities.

Academic integrity requirement

The University of Auckland requires all students admitted into a programme to complete the Academic Integrity Course in their first semester.

www.auckland.ac.nz/academicintegritycourse

www.auckland.ac.nz/academicintegritycourse

www.auckland.ac.nz/pg-english-reqs

English-language requirements

The minimum requirement is an overall IELTS academic score of 6.5 with no band less than 6.0, or an approved equivalent. Some programmes require higher levels of English proficiency, see: www.auckland.ac.nz/pg-english-reqs

### International Student Fees

**Postgraduate programme (per subject area)** | **2019 estimated annual tuition fee for international students (NZ$)**
---|---
| | |
| Science | $34,050–$41,917 |
| Interfaculty programmes | $30,100–$37,950 |
| Doctor of Clinical Psychology (DClinPsy) | $34,050–$41,917 |
| Doctor of Philosophy (PhD) | $37,010–$44,877 |

1. Part-time study options are generally not available to international students on a master’s level; international students must be enrolled full-time to meet the requirements of their student visa.
2. 1 December start available for 120-point research masters only, subject to supervisor availability.
3. Based on an annual tuition fee of 50 points per subject programme that require 60 points to complete (the annual tuition fee for 60 points is shown); same full-time programmes offered by the Faculty of Education and Social Work must require 150 or 160 points to complete (the annual tuition fee for the points required is shown); the full programme fee is shown for some one-year programmes offered by the Faculty of Education and Social Work.
4. Semester two start may not be possible for all subjects/regions/specialisations and only places are available.
5. Upon the recommendation of the Academic Award and approval from the Board of Graduate Studies, a candidate may present a corpus of creative work for assessment instead of a thesis, comprising an independent article.
6. International PhD students will be accorded domestic status for the purpose of tuition fees, subject to supervisory and residency requirements. A new international PhD student is defined as a foreign student enrolled for the first time in a Doctor of Philosophy programme at a New Zealand university. Note that if eligible for the domestic fee, you must reside in New Zealand for the duration of your doctoral programme. However, you may undertake research activities overseas during your doctoral programme, for a cumulative total of no more than 12 months.
7. Part-time only.
8. Professional programme accredited by the relevant professional body.
9. Part-time study is subject to prior approval by the School of Architecture and Planning.
10. Available to qualifying students who have completed Parts I, II and III for the Bachelor of Fine Arts with the required grades. It is not available to students who have already graduated with a BFA (these students may apply to the PGDipFA or MFA two-year option). Programme.
11. After completing the initial two years of full-time study a candidate may apply for permission to continue as a part-time student.
12. This programme has a limited intake each year and is open to New Zealand and Australian citizens and permanent residents only.
14. This programme may not be possible for all subjects/regions/specialisations and only places are available.
15. Must be registered with the Pharmacy Council of New Zealand.
16. Semester two start may be possible subject to prior approval by the Head of Programme.
17. Must have completed Master of Health Psychology.
18. Must be registered with the Nursing Council of New Zealand.
19. Taught option only available for information technology.
20. This programme is a limited intake each year and is open to New Zealand and Australian citizens and permanent residents only.
22. Taught option available for a limited range of majors.
23. Programme starts in June.
24. Taught option only available for a limited range of majors.
25. Taught option only available for 120-point research masters.
26. The above fees are not available for international students.
Sarah McLean is a graduate of the Master of Arts in Pacific Studies. She is the recipient of a Pacific Health Masters scholarship from the Health Research Council of New Zealand, a generous postgraduate scholarship, paying fees and providing a stipend (living allowance) of $27,900 per annum for three years of full-time doctoral study, which may be extended by a further six months (on application). Doctoral scholarships are awarded to both domestic and international students. There are no closing dates or extra application forms; when you apply, just tick the box to request assessment for the scholarship and we’ll do the rest. Scholarship offers are made alongside offers of places in doctoral programmes.

My Master of Arts research thesis examined the professional experiences of mental health service providers who were working with, or had worked with young Samoan females aged 18-24 who had been diagnosed with depression. “I was very fortunate to have Dr Jemaima Tiatia-Seath as my tutor, lecturer and mentor. I was very interested in her work and was trying to figure out how I could make a difference for Pacific communities. I had always said that I would only do a masters degree if I knew it would be of use to others, and Dr Tiatia-Seath helped me achieve this.”

“I really liked that the Master of Arts in Pacific Studies at the University of Auckland did not limit me in terms of what I could do for my research. You have so many brilliant minds in Pacific Studies who all have their unique passions and disciplines, but are brought together to collectively empower Pacific communities.

“It was so nice having the time to pursue postgraduate studies because I now see the importance of being involved in becoming a Samoan researcher in Pacific health. There is very little literature about depression within Pacific communities, let alone young Samoan females. I hope that my research will help to inform future services delivery to better support the mental health needs of this particular demographic, and to contribute to Samoan and gender-focused suicide prevention initiatives.”

Sarah McClean is a graduate of the Master of Arts in Pacific Studies. She is the recipient of a Pacific Health Masters scholarship from the Health Research Council of New Zealand, a Ministry of Health Area scholarship, and a La Ve Pacific Mental Health and Addictions scholarship.

The University of Auckland believes in investing in our postgraduate students – that’s why we offer postgraduate scholarships, awards and prizes to a total value of over $40 million each year. It pays to investigate funding possibilities as early as possible, so you know what you may be eligible for and when applications are due. Other options also exist to help you meet the costs of your study.

Guaranteed postgraduate scholarships

The University offers guaranteed scholarships to research students who meet grade point average (GPA) thresholds from their qualifying programme. Our guaranteed postgraduate scholarships are some of the most generous on offer in New Zealand. As a high-achieving domestic research student, you could be eligible for:

Other postgraduate scholarships

In addition to guaranteed scholarships, the University offers a range of other postgraduate scholarships, awards and bursaries including:

Postgraduate scholarships

Health Research Doctoral Scholarships
Senior Health Research Scholarships
University of Auckland 21 Doctoral Mobility Scholarships
International Student Scholarships
Various subject specific scholarships

Our Scholarships Office provides access to a comprehensive database of external scholarships to give you information about the widest range of funding providers.

For detailed scholarship information, including criteria, closing dates, online applications and application forms, visit: www.auckland.ac.nz/scholarships

Funding your studies

The annual tax-free stipend provided by the University of Auckland Doctoral Scholarships in 2019 (fees are also covered).

Doctoral scholarships and support funding

University of Auckland Doctoral Scholarships are a generous postgraduate scholarship, paying fees and providing a stipend (living allowance) of $27,900 per annum for three years of full-time doctoral study, which may be extended by a further six months (on application). Doctoral scholarships are awarded to both domestic and international students.

Summer Research Scholarships

Summer Research Scholarships are a great way to gain valuable research experience over the summer months. Boost your CV and help you think about pursuing postgraduate study.

The scholarships provide a $4,000 tax-free stipend and are open to high-achieving domestic and international students. Applications are especially welcomed from international students, Māori students, Pacific students and students from other New Zealand universities.

www.summer.ac.nz

www.auckland.ac.nz/scholarships

Student loans and allowances

Student loans and allowances are administered by StudyLink, a service of the Ministry of Social Development. New Zealand citizens and permanent residents may be eligible for financial assistance to support them during their studies.

www.studylink.govt.nz

Phone: 0800 88 99 00

Employment during study

Advanced postgraduate students are often employed as tutors, laboratory demonstrators or teaching assistants for undergraduate courses. Tutoring is a great way to gain valuable professional and teaching experience during your masters or PhD study.

Other opportunities include part-time research assisting, administrative duties or library work. There may be limits on allowable work hours (particularly for scholarship and international students), so you need to check any conditions that may apply. If you are working outside of the University to finance your study, it’s important that you discuss your work commitments with your department’s postgraduate advisor or your supervisor to ensure you can balance your workload realistically.

PReSS accounts

If you’re a doctoral student undertaking supervised research, you’re automatically entitled to research support funding through a University PReSS account. PReSS accounts provide at least $1,100 per annum (discipline dependent) over the four year period of your registration (or until first submission). You can use the money for costs such as attending conferences, research-related travel and accommodation, and research consumables.

www.auckland.ac.nz/presaccounts
Enhancing your career potential

Whether you want to change career, prepare yourself for a career in academia, develop your research portfolio or learn new skills, postgraduate study can help you stand out amongst your peers.

Doctoral Academic Leadership Initiative
The Doctoral Academic Leadership Initiative (DALI) prepares mid-phase doctoral students for life in academia. Focusing on academic leadership, research and teaching, Applications open in October each year. DALI is facilitated by the Centre for Learning and Teaching in Higher Education.

www.clear.auckland.ac.nz/app/dali

Career Development and Employability Services
At any stage of your study at the University of Auckland, you can access Career Development and Employability Services’ (CDES) award-winning careers service. CDES offers a range of professional services that will help you to recognise and grow your capabilities so you can make a successful transition into employment and/or further study.

The CDES website (www.cdes.auckland.ac.nz) is the first stop to help you manage your world of work, life and learning. Here you will find useful tools and resources to assist you, including MyCDES, your personalised career management system, a job board, workshops, large industry expos, recruitment events, workshops and career resources. You can also make an appointment with a dedicated postgraduate Career Development Consultant.

Career Development and Employability Services can assist you to:
• Undertake original research and practice.
• Define and manage a research project.
• Demonstrate mastery of specialist knowledge and theory.
• Gain advanced knowledge of professional practice (depending on your programme).

A postgraduate research qualification will give you the opportunity to:
• Explore new and emerging fields of study.
• Acquire further specialist knowledge and theory.
• Gain advanced knowledge of professional practice (depending on your programme).

Whatever your motivation, a postgraduate taught qualification will provide you with the chance to:
• Explore new and emerging fields of study.
• Acquire further specialist knowledge and theory.
• Gain advanced knowledge of professional practice (depending on your programme).

Learn new skills
To augment and enhance the skills and knowledge you receive as a postgraduate student, the University offers a variety of courses to help develop academic and professional skills, and to help with career planning and professional development.

Take advantage of our international partnerships and programmes
The University of Auckland is in the top 40 of the Times Higher Education’s world’s most international universities, reflecting our international outlook. We have more than 100 Memoranda of Understanding with research institutions around the world, including universities in Australia, Canada, China, Germany, Japan, Sweden, the UK and the US.

360 International
The 360 International Exchange Programme creates opportunities for you to complete part of your University of Auckland degree overseas. Taught postgraduate study may be done on exchange for one semester of a one-year programme. You must discuss feasibility and timing with your faculty.

The countries that you can visit on a one- or two-semester exchange currently include Australia, Belgium, Brazil, Canada, Chile, China, Denmark, England, France, Germany, Iceland, Ireland, Italy, Japan, Korea, Mexico, the Netherlands, New Caledonia, Norway, Scotland, Singapore, Spain, Sweden, Taiwan and the US.

www.auckland.ac.nz/360

Worldwide Universities Network (WUN)
The Worldwide Universities Network comprises 93 research-intensive institutions spanning five continents. The WUN creates new, multilateral opportunities for international collaboration in research and graduate education. Many of WUN’s initiatives encourage the participation of doctoral students and early career researchers in international collaborations.

www.auckland.ac.nz/internationalnetworks

Gaining an international qualification
Our partnerships with leading universities around the world open up a range of opportunities for you to interact with your counterparts, including joint research projects with partner universities, international networking, exchanges, conferences and workshops.

Universitas 21 (U21)
Universitas 21 is an international association of comprehensive, research-intensive universities in 17 countries. The aim of U21 is to facilitate interchange between members. It provides a framework for international collaboration, capitalising on the established reputation and operational reach of each of its members. The University of Auckland is the only university in New Zealand with membership in U21.

U21 Doctoral Student Mobility
The University of Auckland offers scholarships for confirmed doctoral candidates to visit U21 partners for the purpose of research. The scholarships provide up to $5,000 towards the recipient’s mobility. Applications are accepted year-round and are assessed monthly.

China Scholarship Council (CSC)
China to New Zealand
Top Chinese Ph.D. students can study at the University of Auckland through a scholarship programme developed in collaboration with the China Scholarship Council (CSC). Students who receive a scholarship are given a living allowance by the Chinese Government for the term of the scholarship, return airfare to New Zealand, student visa fees and the cost of overseas student health cover.

www.auckland.ac.nz/csc

A number of opportunities exist for students, including participation in APRI research conferences and research symposia.

China Scholarship Council (CSC)
China to New Zealand
The Confucius Institute in Auckland, in cooperation with the China Scholarship Council (CSC), offers up to 10 full scholarships for Chinese language study in China each year. The scholarship provides a monthly allowance and also covers tuition fees, teaching materials, accommodation and on-campus medical care.

www.auckland.ac.nz/china-csc

Postgraduate study can give you the edge in a crowded marketplace. It can also offer the opportunity to change careers, upskill or prepare for the next step in your career. Our graduates are highly sought after in New Zealand and around the world. This is reflected in our QS Stars five-star rating for employability, and our ranking in the top 75 universities in the 2018 QS Graduate Employability Rankings and in the top 150 universities in the Times Higher Education Global University Employability Rankings.*

The value that employers place on postgraduate study is reflected in the levels of remuneration and around the world. This is reflected in our graduates are highly sought after in New Zealand and

“Postgraduate study has helped develop and define my skill set, clarify my creative focus and will provide me with an internationally-recognised qualification that is held in esteem by institutions around the world.”

“I was awarded a Summer Research Scholarship to study methods of integrating musical textures into virtual reality environments. This foundational research was hugely inspiring to me and led directly into the pursuit of further study.”

“My research in this area opened my eyes to an ever-expanding array of creative possibilities and research avenues offered by this technology. One of my studies on musical interactivity in virtual reality was accepted into the International Computer Music Conference 2017, and this opportunity saw me travelling to Daegu, South Korea to present my work as a five-day virtual reality installation.

“As an aspirant composer, I was drawn to the teaching staff at the University of Auckland. The composition department features perhaps the most diverse collective of internationally-recognised composers and lecturers in the country. The level of support offered by the department allowed me to progress further and achieve more than I ever could have without their expertise and enthusiasm.

“When I travel overseas to conferences or music festivals, my alma mater is always a conversation starter. So many students from the University of Auckland have gone on to make names for themselves as international composers and as teachers at other world-class universities.

“I decided to pursue postgraduate studies when it became clear to me that I had only begun to scratch the surface of my area of interest – my research focus had become my passion and I wasn’t ready to give it up. I hope this qualification will lead me further into a career in academia and freelance composition.”

Clovis McEvoy, Master of Music student, is a recipient of the University of Auckland’s Summer Research Scholarship and Masters Guaranteed Scholarship.
Thesis competition.

Morning Teas and the university-wide 3 Minute exposition are events for postgraduate students to talk about University issues and receive the latest postgraduate research exposition.

The PGSA also supports Exposure, an annual event where you can access diverse collections of electronic resources, including databases, e-journals and e-books. Your University username and password allow you to access most electronic resources anywhere. With the libraries you can access large collections of print, multimedia and most other materials, including unique manuscript and archive collections.

There are online resources and workshops available for a variety of topics, including finding articles, time management, reading effectively, critical thinking and reference management. Online resources to support masters research and thesis writing are also available.

Advisors offer research consultations to help you identify appropriate information sources, create search strategies and help you stay current with research.

Libraries and Information Commons (IC) facilities also provide more than 4,000 study spaces, many with computers and access to printers, scanners and photocopiers. IC Helpdesks provide support for student computing resources and services including username and password, student email, internet access, the wireless network and student file storage.

www.library.auckland.ac.nz

Postgraduate Students' Association (PGSA)

The PGSA aims to make postgraduate life more enriching and fulfilling, and is the voice of postgraduate students (along with AUSA) within and outside the University.

The PGSA represents postgraduate students in Arts. Check your faculty website for details, or request more information from the postgraduate adviser in your department.

Māori and Pacific students support

The University is committed to being safe, inclusive and equitable. We welcome and support Māori and Pacific participation and achievement in all aspects of university life.

Waipapa Marae (City Campus) and Te Aka Matua o Te Pō Hauawāhi (Epsom Campus) provide a home away from home for our Māori students and their whānau.

Our Fale Pasifika is the centre of the University’s Pacific community. It houses the Centre for Pacific Studies, and provides a space for discussion and support.

The Equity Office’s Kaikarai and Pacific Equity Adviser can provide advice and guidance to help ensure our Māori and Pacific students succeed here.

All our faculties offer Tukana, a learning community enhancing the academic success of Māori and Pacific students through academic mentoring and workshops, and pastoral support.

www.auckland.ac.nz/tukana

Te Fako Pourehema (TFP) is a programme coordinated by Māori and Pacific Learning Advisers. TFP provides a friendly and professional service that encourages Māori and Pacific scholars to thrive. Learning advisers assist students with wānanga/fono, workshops, study groups and advisory sessions.

www.library.auckland.ac.nz/tpf

Postgraduate Hui/Fonotoga

The Equity Office hosts networking events for Māori and Pacific postgraduate students throughout the academic year. For more information email Naumi Faumuili, Student Equity Adviser naumuili@auckland.ac.nz

www.auckland.ac.nz/pacificstudents

www.library.auckland.ac.nz

Support for student equity groups

‘Equity’ means fairness. The Equity Office leads the University’s commitment to ensuring everyone who has the potential to succeed at our University can do so. We have a range of initiatives, resources and support for our students and their whānau and families. Check out the websites below or visit www.equity.auckland.ac.nz

International student support

The University provides a comprehensive range of support services for international students to help make your transition to life in Auckland as smooth as possible. This includes learning and academic support, English language support and personal support (see pg. 48-49).

www.international.auckland.ac.nz

Students who are parents

Accommodation

The University offers a limited range of one- and three-bedroom apartments to postgraduate students with young families (see pg. 46).

www.accommodation.ac.nz

Childcare

The University Early Childhood Centres offer assistance with juggling childcare and study. All of our centres follow the New Zealand early childhood curriculum, Te Whāriki.

There are six on-campus early childhood centres providing care for children of our students on the City, Grafton and Epsom Campuses. Bookings are essential as there can be a waiting list at each centre.

Phone: +64 9 923 9714

www.auckland.ac.nz/childcare

Two of the centres are Māori medium centres: Hinetewai Kohanga Reo on the City Campus and Te Puna Kīhongahoura on the Epsom Campus. For further information about these centres, please contact +64 9 623 8857.

Parent Space and breastfeeding facilities

Parent Space (available at Tamaki and City Campuses) offers facilities for students with children under 16, including study space, computers and WiFi, a high chair and port-a-cot, toys and books, and a place for you to relax. Breastfeeding facilities are available on all of our campuses.

www.auckland.ac.nz/parentingsupport
Health and counselling service
Your health and wellbeing is key to your success while you’re studying. Our health and counselling service has practitioners who specialise in student needs, offering you quality advice, support and care. Our main centre is at the Information Commons on the City Campus. Clinics are also open throughout semester on the Epsom, Grafton and Tai Tokerau campuses. Students who register the service as their primary health organisation are eligible for discounted healthcare.
www.auckland.ac.nz/healthandcounselling

AUSA Advocacy
AUSA Advocacy is a professional service that provides advice to students with a range of academic, administrative and welfare related issues. All students can access this free, confidential service, which is completely independent from the University.
We provide advice about your rights and responsibilities within the University, in a respectful, non-judgmental and timely manner. Our services include advocacy, support, information and referrals on any issues that may affect your ability to meet your academic goals. We aim to empower you to negotiate University policy and grievance procedures and to develop an environment where the privacy, dignity and respect of all parties are maintained.
AUSA Advocacy
Rooms G15 or G09, Old Choral Hall, City Campus
Email: advocacy@ausa.org.nz
Phone: +64 9 923 7294
www.ausa.org.nz/support/advocacy

Recreation and entertainment
Cafés and bars
Whether you’re catching up with friends or just grabbing a snack, there’s an outlet on campus to suit your needs. Our wide range of retailers and vending machines ensure you don’t need to travel far, giving you time to enjoy the vibrant campus culture. A variety of food trucks frequently visit the City and Epsom Campuses during semester.
www.auckland.ac.nz/foodandretail

Strata, the postgraduate area on the fourth floor of the Kate Edgar Information Commons, features a postgraduate lounge – a large, quiet study area – and a licensed café with a balcony that overlooks the City Campus. The PGSA hosts a number of postgraduate functions throughout the year on and off-campus.

Doctoral students are welcome to join the Staff Common Room (SCR) Club at Old Government House on the City Campus. Primarily a social club, the SCR operates a café and bar, and organises social functions for its members. To join, email t.biggs@auckland.ac.nz.

Clubs
There are more than 200 student clubs and societies, ranging from cultural organisations to academic interest groups and clubs for hiking, skiing, art, fitness and yoga. Attend the Clubs Expo at the start of semester to meet the current club members and find out more.
www.auckland.ac.nz/clubs

Sport and recreation
Play sport, get fit and have fun, whether it’s by using our gym facilities, taking part in one of our Group Fitness classes or signing up for a sport. Our Sport and Recreation Centre offers a well-equipped gym with weights and cardio machines, sports hall and squash court, as well as a number of Group Fitness classes you can join. The professional Sport and Recreation staff can talk you through the many options to get involved, as well as offering personalised advice on health, fitness and general well-being to ensure an active body and mind.

You can choose to represent your faculty in one of twelve sports in the Interfaculty Sports Championship, or get some friends together and sign up for one of the UNIM8S Social Sports Leagues. If you are playing a sport at a high level, there are opportunities to represent the University in tertiary sports. There are also some 30 student-run university sports clubs that you can join. If you want to continue a sport or try something new or are looking to make new friends.

You can hire equipment for swingball, gutterboard, Viking chess and more to bring informal activities to your faculty. See our website for more information.
www.universitysport.auckland.ac.nz

Music and culture
You can often enjoy live musical events at the City Campus Quad. 95bFM broadcasts from the City Campus, providing news, views, music, club guides and an accommodation guide.
Visit www.95bfm.com for live streaming or to volunteer.
Visit the Gus Fisher Gallery to see work by established New Zealand and international artists or try the George Fraser Gallery for a taste of the talent at Elam School of Fine Arts.
Drama students frequently present productions in our Drama Studio.
Details of music concerts, dance performances and art exhibitions produced by the Faculty of Creative Arts and Industries can be found at www.creative.auckland.ac.nz, where you can sign up to receive regular updates.
What’s On is your online hub for events at the University. Join the What’s On events email list or like the What’s On Facebook page to keep up to date with what’s happening on campus.
www.auckland.ac.nz/whatson
www.facebook.com/ausewhatson

UniGuides
As a new student at the University of Auckland it can be challenging to meet new friends, learn about campus resources and services or find out where classes are located. The UniGuide Programme is a free service designed to help make your first semester easier, by connecting you with a student mentor who can show you the ropes. You will meet your UniGuide at your Faculty Orientation Day.
www.auckland.ac.nz/uniguides
"I like the flexibility of the programme and the support from staff and students alike."

PhD candidate Pania, of Ngāti Rangitihi and Ngāi Tahu descent, is a recipient of the HRC Māori Health Research PhD Scholarship. She is researching the effects of artificial sweetener in the maternal diet on offspring fertility and health outcomes.

"Currently, artificial sweeteners are seen as the healthy alternative to regular sugar. However evidence suggests that they may be linked to obesity and metabolic dysfunction. We also know that the maternal environment is one factor which can contribute to offspring obesity - for example, maternal obesity is more likely to cause obesity in offspring in later life.

"As global and local obesity rates continue to rise, it’s important to understand the mechanisms through which maternal environment and diet can influence offspring health. Investigating what effect artificial sweeteners have on the health of mothers and their offspring will help contribute to the growing knowledge on early life development.

"The University of Auckland offered a PhD programme that suited my needs, and I found the Liggins Institute’s research themes aligned well with my interests. Developing friendships with my fellow Liggins Institute PhD students has been really easy. They are all willing to stop and chat and make new students feel welcome."

"My degree will help teach me invaluable lab and research skills. The ability to travel to local and international conferences to discuss my work and hear about other research in my area of interest is a great way of sharing knowledge, making contacts, and seeing what opportunities might be out there following my PhD."

Pania Bridge-Comer is a PhD candidate in Biomedical Science. She is a recipient of the HRC Māori Health Research PhD Scholarship. Watch Pania speak about her postgraduate experience at www.auckland.ac.nz/gradvids
Finding accommodation

As a postgraduate student, you need a living environment that allows you to focus on your studies, while enjoying all the social and recreational opportunities that the University and city of Auckland have to offer.

University-managed accommodation

Furnished, self-catered options

All of our residences offer the opportunity to meet and make new friends with other students from New Zealand and around the world. In residences that house both postgraduate and undergraduate students, postgraduate students are housed close together so that they can form their own community.

55 Symonds

Open in 2017, 55 Symonds is the University’s newest purpose-built student accommodation. These modern, air-conditioned studio deluxe and studio deluxe double apartments are suitable for both singles and couples. As well as the amenities offered in your studio, shared facilities include a large communal kitchen and dining area opening onto a spacious courtyard, TV room, lounge and additional study areas.

Carlaw Park Student Village

Located in Parnell, Carlaw Park is only a five minute walk from the City Campus and accommodates 697 students in a combination of two, three and four bedroom apartments spread throughout seven buildings. The two bedroom apartments and one three-bedroom apartment are exclusively designated for students with young families. Each building has direct access to shared common areas, including a large study room, games room, large outdoor area and laundry facilities.

Grafton Student Flats

Grafton Student Flats offers single and twin-share accommodation, and a limited number of studios, to 55 postgraduate and undergraduate students. Grafton Student Flats are located on the Grafton Campus and are a 15-minute walk to the City Campus. This residence also offers optional meal plans at an additional weekly rate, with meals served in the dining room of Grafton Hall.

UniLodge Anzac Beach

Located only a five minute walk from the City Campus, UniLodge Anzac Beach provides an independent-living environment in self-catered studio, studio deluxe, or one or two bedroom apartments. There is a number of recreation facilities for you to enjoy, including a swimming pool, sun deck, BBQ area, games room, theatre and gymnasium. UniLodge Anzac Beach is not suitable for families.

UniLodge Whitaker

UniLodge Whitaker is a high-rise apartment complex just a short walk from the City Campus. This residence offers 270 studio apartments and 30 deluxe studio apartments, each with their own ensuite bathrooms and kitchenette facilities. Residents also enjoy modern shared facilities including a large communal kitchen, lounge with Sky TV, study room, games room and small on-site gym.

Waikohanga House

Located at 44 Symonds Street, just a five minute walk from the City Campus, this beautifully refurbished building is the University’s newest accommodation for couples and families. Waikohanga House offers fully-furnished one, two and three bedroom apartments. Residents have access to on-site laundry and printing facilities.

Private accommodation

Apart from our University-managed student accommodation facilities, there is a range of apartments and flats around Auckland. The University is located close to the city’s central business district and is served well by public transport from all areas.

If you are interested in seeking accommodation outside of the University residences, our Accommodation Solutions team can assist you with comprehensive information about renting in Auckland, including rental agents, useful websites, tenancy requirements, bus timetables, maps, school information and more. Private accommodation can be difficult to find during January and February, with large numbers of students looking for accommodation. We suggest that you start your search early to secure accommodation. Please note that we do not inspect or guarantee the quality or availability of private accommodation.

Renting

If you rent a house or a flat in a nearby suburb you will need to sign a tenancy agreement with the landlord. City flats or apartments are generally furnished, while those in nearby suburbs are often unfurnished, with just a stove and oven provided.

Homestays

In a homestay you live in a New Zealand family home where you will have a fully-furnished room. Your host will provide breakfast and dinner each evening, and three meals each day during the weekends. Note that most homestays are not usually located within walking distance of the University campuses and may be a bus ride away. We use a homestay agency for placements.

Accommodation for couples and families

We provide a range of accommodation for couples and families. Demand is high for this accommodation and availability is limited, especially if you are applying outside of Semester One. If you are applying in Semester Two or between February and November, we recommend you contact our Accommodation Room for assistance in finding accommodation that best fits your needs.

How to apply

You can apply online for a place in a University-managed residence for 2019 from 1 August 2018 at www.accommodation.ac.nz

*PG = postgraduates
The University of Auckland warmly welcomes students from all over the world. Studying with us offers you a wonderful opportunity to gain an internationally recognised qualification in a stimulating environment. Our diverse student population includes over 8,000 international students from more than 120 countries, so you’ll be part of a genuinely global academic community.

**Why study in New Zealand?**

- As a safe and politically stable country with a high standard of living, New Zealand is an ideal place to enjoy your postgraduate study.
- New Zealand enjoys a global reputation for technical innovation supported by its world-class education system and reputation for research excellence.
- Education in New Zealand is not just about imparting knowledge, but also about generating new ideas and fostering independent thinking.
- Studying at the University of Auckland, New Zealand’s leading university, will equip you for the global marketplace with an internationally recognised qualification.

**Domestic fees for PhDs**

Under a New Zealand Government scheme, new international PhD students who reside in New Zealand during their doctoral study will pay the same annual tuition fee as New Zealand students (NZ$27,108; US$18,947** per annum in 2019). Including compulsory health insurance for international students (NZ$28; US$20 per annum; see pg. 43) and the Student Services fee (NZ$484.47; US$335.65 in 2019) was NZ$28,473.55 (US$19,853** per annum).

**Benefits of studying for a PhD in New Zealand**

- Your dependent children will be classified as international students and may also benefit from the support services the University of Auckland offers to all of its students.
- There are also specialist international student support services to help you adjust to life in New Zealand and enjoy your studies at the University.

**International Orientation**

The International Office arranges an Orientation programme at the beginning of Semester One and Two for new international students. It is designed to give you all the information you need about the University and living in Auckland. In addition, the University puts on a number of social, sporting and cultural activities that provide great opportunities to make new friends.

**Pastoral care for international students**

Our international student advisors can help you if you need to talk to someone about any difficulties. They offer a confidential service to help you sort out issues related to your studies, accommodation, health, budgeting, work, immigration or adjusting to life in New Zealand.

For more information on scholarships available to international students, including selection criteria, application forms and closing dates, visit: www.auckland.ac.nz/is-scholarships

**Scholarships**

The University of Auckland administers scholarships that are open to international students wishing to pursue postgraduate study.

The International Office also works with external scholarship agencies and government bodies to provide opportunities for international students who meet entry requirements.

A selection of available scholarships is listed below. For a full list please visit our website:

www.auckland.ac.nz/is-scholarships

**Postgraduate scholarships for international students**

- University of Auckland International Student Scholarships
- University of Auckland Doctoral Scholarships
- Asian Development Bank – Japan Scholarships
- Dean’s International Doctoral Scholarship (HINH)
- Education and Social Work Postgraduate International Student Scholarships
- Faculty of Arts International Masters Degree Scholarships
- Faculty of Creative Arts and Industries International Masters Scholarships
- Faculty of Science Masters Awards
- New Zealand Aid Programme scholarships
- University of Auckland Fulbright Scholarships
- University of Auckland Health Research Doctoral Scholarships
- University of Auckland International Business Masters Scholarships
- University of Auckland Law School’s Dean’s Doctoral Scholarships
- University of Auckland Senior Health Research Doctoral Scholarships

Guaranteed scholarships

The University offers guaranteed University of Auckland Doctoral Scholarships to new international PhD applicants who meet grade point average (GPA) thresholds in their qualifying programme from a New Zealand university.

For more information see www.auckland.ac.nz/makeithgrade

**English-language support**

If English is not your first language, you will be required to provide proof of your English-language proficiency to be accepted for postgraduate study (see www.auckland.ac.nz/pg-english-req for more information about English-language requirements). The University provides plenty of support to help you further develop your academic English skills during your studies.

**DELMA**

DELMA (Diagnostic English Language Needs Assessment) is a free service that determines the level of English language support you will need to succeed in your studies.

www.delma.auckland.ac.nz

**English Language Enrichment (ELE)**

English Language Enrichment (ELE) provides opportunities for students to develop their academic communication skills through workshops and individual consultations. At ELE on campus, you can get advice about your English, join language learning groups and find language exchange partners through our Language Exchange Programme (LEP).

ELE Online provides language learning materials, including vocabulary, grammar and pronunciation tools to help improve your academic English. Your student online access allows you to use these resources anytime, anywhere.

www.library.auckland.ac.nz/ele

**Working while you study**

If you are enrolled as a full-time student at the University of Auckland, you may be eligible to work during your programme of study.

For up-to-date information on work rights while on a student visa in New Zealand please visit: www.immigration.govt.nz/study

**Before you arrive in New Zealand**

**Immigration**

You must apply for a student visa to cover the period you intend to study in New Zealand. You must show evidence that you have been accepted into a programme, have paid your tuition fees and have sufficient funds to cover your costs while in New Zealand. You must apply for your visa before entering New Zealand.

Full details on rights to employment in New Zealand while studying are available through Immigration New Zealand, and can be viewed on its website at www.immigration.govt.nz/study

**CDES**

Career Development and Employability Services (CDES) create your future with the support of our free services, available from day one through to three years after graduation.

Career Development and Employability Services (CDES) support you to find your direction, identify opportunities and develop the skills to be employable at the end of your studies.

The CDES team works closely with organisations and faculties to create specialised programmes, career expos, networking opportunity workshops and employer presentations to help you to connect with potential employers.

CDES also has a specialised careers consultant for international students.

Access online tools, job boards, and book appointments, workshops and employer events through MyCDES, your online career management portal.

www.cdes.auckland.ac.nz

**8,000 International students bring perspectives from over 120 countries to our campuses.**

---

**Suzanne has recently completed a Master of Commercialisation and Entrepreneurship.**

This part-time masters for working professionals combines taught courses with applied learning and includes a project in commercialisation to apply these skills in a real-life context.

“I decided on postgraduate study because I wanted to validate my skills in commercialisation and entrepreneurship. I chose the University of Auckland as the Business School is well regarded both locally and internationally. The University of Auckland also has the highest rated university in New Zealand for its global reputation amongst both academics and employers.”

“I believe having this masters will demonstrate to current and future employers that I have entrepreneurial and commercialisation skills beyond my current role, that I am able to apply these skills to invest in Auckland commercial start-ups, and that I am able to draw on practical skills to assist companies in their commercialisation.”

**Name:** Michelle

## How to apply

### Honours, postgraduate certificate, postgraduate diploma and masters programmes

#### Before you apply
- Check the entry ([www.auckland.ac.nz/pg-entry-requirements](http://www.auckland.ac.nz/pg-entry-requirements)) and English-language ([www.auckland.ac.nz/pg-english-reqs](http://www.auckland.ac.nz/pg-english-reqs)) requirements for your programme.
- Check the application closing date (pg. 50). We recommend you apply as early as possible. You don’t need to wait to meet the requirements before applying – as long as you meet them before the programme begins.
- If you are applying for a 1-year masters with a research project, you will need to provide evidence that a member of academic staff has agreed to supervise you. See FindaThesis ([www.findathesis.auckland.ac.nz](http://www.findathesis.auckland.ac.nz)), the research webpages for your area of interest or contact the postgraduate adviser for your programme/faculty for potential supervisor details.

#### Ready to apply?

1. **New to the University of Auckland or a former student?**
   - Apply for admission online: [www.apply.auckland.ac.nz](http://www.apply.auckland.ac.nz)

2. You will receive an acknowledgement email listing the supporting documents we require, and a Student ID number for logging on to your Application for Admission. You can check your application status online and see what supporting documents you will need to provide. Your application will be assessed once we receive sufficient information (such as uploaded transcripts, other academic results, references or a portfolio) or you have attended an interview.

3. We will assess your application and inform you of the outcome via email. The status will show on the ‘Your applications’ section of your Application for Admission.

4. Accept (or decline) your offer online at [www.apply.auckland.ac.nz](http://www.apply.auckland.ac.nz). If you have a conditional offer, you should accept your offer straight away. There is no need to wait to meet the conditions before accepting your offer. We encourage you to submit the required information to meet the conditions as soon as you are able.*

5. Enrol in your courses. The postgraduate enrolment process is faculty-specific. See [www.auckland.ac.nz/pgenrolment](http://www.auckland.ac.nz/pgenrolment)

#### Applying for a Graduate School of Management programme

For information on how to apply to a Graduate School of Management programme, visit [www.gsm.auckland.ac.nz](http://www.gsm.auckland.ac.nz)

#### Need help applying?

Find answers to frequently asked questions:
- [www.ask.auckland.ac.nz](http://www.ask.auckland.ac.nz)
- Email: postgradadm@auckland.ac.nz
- Phone: 0900 61 62 65
- Find a postgraduate adviser: [www.auckland.ac.nz/pgadviser](http://www.auckland.ac.nz/pgadviser)

### PhD or named doctorate

#### Before you apply
- Read the academic entry requirements: [www.auckland.ac.nz/doctoralentry](http://www.auckland.ac.nz/doctoralentry)
- Decide on, and clarify as much as possible, your potential research topic or area of research. Check that we have active research in your preferred research area by exploring faculty or department websites, FindaThesis ([www.findathesis.auckland.ac.nz](http://www.findathesis.auckland.ac.nz)) and the University Directory ([www.unidirectory.auckland.ac.nz](http://www.unidirectory.auckland.ac.nz)).
- Check the English-language requirements for your programme: [www.auckland.ac.nz/pg-english-reqs](http://www.auckland.ac.nz/pg-english-reqs)
- If you are applying for the Doctor of Clinical Psychology or Doctor of Education, check the application closing date (pg. 48). Applications for all other doctoral programmes may be submitted at any time of the year.
- Have electronic copies of the following ready:
  - Relevant academic transcripts
  - Statement of Research Intent
  - Approved English language test scores from within the last two years
  - Academic CV or résumé
  - Evidence of research activity (including a thesis or dissertation)
- Arrange for two referees to support your doctoral application. Doctoral referee reports must be submitted directly from your referees.

You can download a Statement of Research Intent form, a Doctoral Referee Report form, and follow our step-by-step guide for doctoral applications, admissions and enrollment at [www.auckland.ac.nz/applydoctorate](http://www.auckland.ac.nz/applydoctorate)

#### Ready to apply?

1. **Apply for admission online:** [www.apply.auckland.ac.nz](http://www.apply.auckland.ac.nz)

2. You will receive an acknowledgement email with your Application for Admission login details. You can use these details to keep track of your application status. You can also check online to see if you need to supply any additional supporting documents. Assessment of your doctoral application can take eight weeks or longer.

3. When a decision is made, the status will show on the ‘Your applications’ section of your Application for Admission and we will inform you of the outcome via email. If you indicate in your application that you would like to be considered for a University of Auckland Doctoral Scholarship, you will be informed of the outcome in the same email.

4. Accept (or decline) the offer online.

5. When you accept an offer of place, you are admitted to your programme. We will acknowledge your acceptance by email with information on how to enrol. Domestic applicants have 3 months to enrol; international applicants have 6 months to enrol.

#### International applicants

Follow the guidelines on pages 48–49.

Read the entry requirements for non-doctoral programmes for international applications: [www.auckland.ac.nz/is-pg-entry-requirements](http://www.auckland.ac.nz/is-pg-entry-requirements)

We recommend you apply as early as possible to allow sufficient time to apply for visas. We have a number of official agents and overseas representatives who can help you with the application process in person: [see www.auckland.ac.nz/overseasrep](http://www.auckland.ac.nz/overseasrep)
Applications to Law postgraduate programmes may be submitted at any time of the year.

Doctoral applications (excluding DClinPsy and EdD) may be submitted at any time of the year. If you wish to study.

If you wish to apply to begin your study in Semester Two 2020, you should check with your faculty to see if there are specific closing dates for the programme you wish to study.

Doctoral applications (excluding DClinPsy and EdD) may be submitted at any time of the year.

Please make careful note of the application closing dates listed below. Applications submitted after the closing date will be considered if places are available.

Glossary

This is a quick guide to common University of Auckland terms used in this prospectus. These are not intended to be legal definitions, refer to the University Calendar when interpreting these terms. www.calendar.auckland.ac.nz

Application for Admission
The first step in the application process is to apply for admission to the University and your postgraduate programme. www.apply.auckland.ac.nz

Course
The basic component of your programme of study. Courses are normally taught and assessed over one semester or two consecutive semesters in the same academic year. A course is sometimes referred to as a “paper” at other universities.

Enrolment
Once you have applied and been admitted to the University and your programme, you will need to enrol in the courses that will make up your programme of study (see pg. 50).

Faculty
There are eight faculties at the University: each offers and administers programmes within their discipline or group of disciplines. In addition, you can undertake postgraduate programmes at one of our large-scale research institutes: Auckland Bioengineering Institute and Liggins Institute.

Programme
A programme is a prescribed set of one or more courses or other work (such as a thesis). A certificate, diploma or degree is awarded on the successful completion of the programme.

University of Auckland Calendar
You will find regulations and requirements for all of our postgraduate programmes in the University Calendar, available in print and online: www.calendar.auckland.ac.nz

Information for international students

The Education (Pastoral Care of International Students) Code of Practice: The University of Auckland has agreed to observe and be bound by the Education (Pastoral Care of International Students) Code of Practice: www.nzqa.govt.nz/the-code

Immigration: To complete enrolment, students must have a current valid visa that permits them to study at the University of Auckland.

Full details of visa requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available through the New Zealand Immigration Service, and can be viewed on their website at www.immigration.govt.nz/study

Eligibility for health services
Most international students are not entitled to publicly funded health services while in New Zealand.

If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlement to publicly funded health services are available through the Ministry of Health and can be viewed on their website at www.health.govt.nz

Medical and travel insurance
All international students are legally required to have appropriate health and travel insurance. The University of Auckland’s recommended policy is Studentsafe Inbound University and the insurance premium will be added to your student account. You will receive details with your offer of admission letter from the University. www.auckland.ac.nz/is-insurance

Costs
All costs are shown in New Zealand dollars and are expressed inclusive of New Zealand Goods and Services Tax if applicable.

Privacy
The University of Auckland undertakes to collect, store, use and disclose your information in accordance with the provisions of the Privacy Act 1993. Further details of how the University handles your information are set out in a brochure available from the AskAuckland Central student information centre or by phoning 0800 61 62 63.

Disclaimer
Although every reasonable effort is made to ensure accuracy, the information in this document is provided as a general guide for students and is subject to alteration. All students enrolling at the University of Auckland must consult the official document, the current Calendar of the University of Auckland, to ensure that they are aware of and comply with all regulations, requirements and policies.
